

# RELOADING DIE - RCBS 12GA BRASS CASE SHELL HOLDER

[Reloading](#) > [Reloading Presses](#) > [Shotshell Presses](#)

The die hard Cowboy Action Shooter not only uses authentic firearms and loads with black powder, but also dresses the part. Many would like to use period correct all brass shotshell ammunition, but with no good way to reload them, colorful plastic hulls continue to be used. Today's modern shotshell presses can handle the powder drop, wad seating and shot drops but could do nothing to handle the sizing, de-priming, re-priming and crimp of a brass case. The RCBS Cowboy Shotshell die answers this need. Designed to be used in any RCBS single stage press with a removable die bushing, it performs just like a rifle sizing die. The Cowboy Shotshell Die will first size and de-prime the case; Re-priming is done with the standard priming provided with the press. Use your shoshell press to fill the case with powder, seat the was and spacers and dispence you shot charge. Remove the sizing ring and install the finish crimp. Place your over shot card onto the shot charge and run up in to the die to roll crimp the case mouth. A newly handloaded brass shotshell is completed.

## Attributes

- Name: [RCBS 12GA BRASS CASE SHELL HOLDER](#)
- Manufacturer: [RCBS](#)
- Product no.: 000003821
- Mfr. No.: 99061
- Gauge: 12 Gauge
- Delivery weight: 0.005kg
- Shipping height: 25mm
- Shipping width: 51mm
- Shipping length: 178mm
- UPC: 076683990617

# Safety Instruction Guide for the RCBS 12GA Brass Case Shell Holder

## Introduction

Thank you for choosing the RCBS 12GA Brass Case Shell Holder. This product is designed for use in reloading shotshells, specifically for Cowboy Action Shooting. It is important to follow the safety guidelines outlined in this manual to ensure safe operation and to maximize the performance of your reloading equipment.

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Keep the product out of reach of children and vulnerable individuals.
- Ensure that your workspace is clean and organized to prevent accidents.
- Use the product only for its intended purpose.
- Wear appropriate safety gear, including eye protection, when reloading.
- Be aware of your surroundings and ensure that no unauthorized persons are in the vicinity while reloading.
- Regularly inspect your equipment for signs of wear or damage.
- Follow all local laws and regulations regarding ammunition reloading.

## Specific Safety Precautions for Use

- Ensure that the shell holder is compatible with your RCBS single stage press before use.
- Do not exceed the recommended load limits when filling the brass shotshells.
- Handle all components, including primers and powders, with care to avoid accidental ignition.
- Store all reloading components in a cool, dry place away from direct sunlight and heat sources.
- Avoid distractions while reloading to maintain focus and attention on the task.
- If you experience any difficulties or malfunctions while using the shell holder, stop immediately and consult the troubleshooting section of your reloading press manual.

## Instructions for Installation and Usage

### 1. Installation of the Shell Holder

- Ensure your RCBS single stage press is turned off and unplugged.
- Remove the existing die from the press.
- Insert the RCBS 12GA Brass Case Shell Holder into the die bushing of the press.
- Secure the shell holder in place according to the press manufacturer's instructions.

### 2. Reloading Process

- **Sizing and Depriming**
  - Insert a brass shotshell into the shell holder.
  - Operate the press handle to size and deprime the case.
- **Repriming**
  - Use the standard priming system provided with your press to reprime the case.
- **Filling the Case**
  - Use your shotshell press to fill the case with the appropriate powder.
  - Seat the wad and spacers as per your reloading recipe.
  - Dispense the shot charge into the case.
- **Finishing the Reload**
  - Remove the sizing ring from the shell holder.

- Install the finish crimp die.
- Place the overshot card onto the shot charge and run it into the die to roll crimp the case mouth.

### **3. Completion**

- Inspect the newly handloaded brass shotshell for any defects before use.
- Store completed shotshells in a safe and organized manner.

## **Disposal Instructions**

- Dispose of any unused or defective components in accordance with local regulations.
- Do not throw away used primers or powders in regular trash; check for hazardous waste disposal options in your area.
- Ensure that all materials are disposed of safely to prevent environmental contamination.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding the RCBS 12GA Brass Case Shell Holder, please refer to the official RCBS website or contact your local distributor.

By following these safety guidelines and instructions, you can ensure a safe and efficient reloading experience. Thank you for prioritizing safety while enjoying your reloading activities.
