

# R3D NIGHT SIGHTS FOR SIG SAUER/SPRINGFIELD/FN - XS SIGHT SYSTEMS R3D NIGHT SIGHTS GREEN SIG P365/226 SPRINGFIELD SD, FN 509

[Handgun Parts](#) > [Sights](#) > [Sight Sets](#)

XS® R3D Night Sights feature a traditional 3-dot tritium, notch and post sight picture. The blacked out rear increases contrast against the front sight. Available in orange or green, the front sight ring is equipped with their Ember™ Glow Dot Technology which absorbs ambient light and glows in low light. R3D sights are the brightest options for fast and accurate shooting in bright and low light. Green is the best option for low light and has the brightest glow intensity. Orange contrasts the best in bright light settings while still maintains visibility in low light. The front sight tritium lamp is brighter than the 2 rear sight lamps, reducing the possibility of mixing up the front sight tritium vial with a rear sight vial in low/no light. The front blade measures 0.145" (3.68 mm) wide, and the rear notch is 0.170" (4.32 mm) wide, which increases the visibility of the front sight. R3D sights are installable by sight pusher tools or by using a hammer and punch.

## Attributes

- Name: [XS SIGHT SYSTEMS R3D NIGHT SIGHTS GREEN SIG P365/226 SPRINGFIELD SD, FN 509](#)
- Manufacturer: [XS SIGHT SYSTEMS](#)

# R3D Night Sights Safety Instruction Guide

## Introduction

Thank you for choosing the R3D Night Sights for your firearm. These sights are designed to enhance your shooting experience by providing improved visibility in various lighting conditions. This safety instruction guide is designed to ensure that you use the product safely and effectively, in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that the R3D Night Sights are installed and used according to the manufacturer's instructions.
- Always treat firearms as if they are loaded, and follow all safety protocols related to firearm handling.
- Keep the sights out of reach of children and vulnerable individuals.
- Regularly inspect the sights for any signs of damage or wear.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Identification:** Improper installation or use may lead to misalignment, affecting accuracy and safety.
- **Avoiding Hazards:**
  - Ensure that the firearm is unloaded before installation.
  - Use appropriate tools for installation to avoid damaging the sights or the firearm.
  - Do not attempt to modify the sights or the firearm in any way.
- **Age Specific Warnings:** These sights are intended for adult use only. Keep them away from children and individuals who are not trained in firearm safety.

## Instructions for Installation and Usage

### 1. Installation:

- Gather the necessary tools: sight pusher tools or a hammer and punch.
- Ensure the firearm is completely unloaded.
- Carefully remove the existing sights from the firearm.
- Align the R3D Night Sights with the sight dovetail.
- Securely install the sights using the appropriate tool, ensuring they are properly aligned.
- Check for stability and alignment before using the firearm.

### 2. Usage:

- Familiarize yourself with the sight picture: the traditional 3dot tritium design.
- Use the sights in various lighting conditions to understand their performance.
- Practice shooting regularly to improve accuracy and confidence with the sights.

## Disposal Instructions

- Dispose of the R3D Night Sights in accordance with local regulations.
- Do not dispose of the sights in regular household waste.
- Contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the R3D Night Sights, please reach out to the manufacturer or your local dealer for assistance. Always ensure that you are using the product in a safe and compliant manner.
