Fast Sight Pickup In Low Light

Big Dot and Standard Dot Night Sights are defensive tritium sights designed to enhance your defense gun. The sights use a proprietary photoluminescent Glow Dot that absorbs ambient light and glows in low light. The convex dot's additional surface area increases light absorption, intensifying the charge of the Glow Dot. Designed to be large and highly visible, these sights help solve many issues, from aging eyes to deteriorating vision. XS have found that the orange front tends to be most visible in daylight settings and that yellow glows brighter in low light, while green is an excellent option for low light and has a very bright glow intensity. XS Tritium Night sights are big, bright, and easy to see day or night! The sights are CNC machined from solid steel bar stock by their in-house machine shop. They design, machine, and insert their tritium to produce the highest quality possible and provide American Made products. XS are a small, second-generation family-owned business based in Fort Worth, TX, and their customers are family. XS live, eat, and breathe guns. XS offer easy DIY install instructions and a 30-Day Satisfaction Guarantee. If you have color vision issues and can't see the front dot, call us, and XS will get another color shipped out - over 5% of the population has color blindness to a degree! SPECS Tritium poXSred front sight Big Dot front measures 0.188" Standard Dot front measures 0.140" High-contrast colored front sight Glow dot absorbs ambient light and glows in low light Durable CNC machined steel 12 year warranty on tritium 30 Day Satisfaction Guarantee

BIG DOT TRITIUM SIGHTS FOR SMITH & WESSON & RUGER Safety Instruction Guide

Introduction

Thank you for choosing the BIG DOT TRITIUM SIGHTS. These sights are designed to enhance your shooting experience by providing improved visibility in lowlight conditions. This safety instruction guide is designed to help you use the product safely and effectively, in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified by the manufacturer.
- Keep the sights out of reach of children and vulnerable individuals.
- Regularly inspect the sights for any signs of wear or damage. If any issues are found, discontinue use immediately and seek support.
- Be aware of your surroundings and ensure that you are using the sights in a safe environment.
- Report any unsafe products or accidents to the relevant authorities.
- Stay updated on recall notices and product safety information via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always handle firearms safely and responsibly.
- Ensure that the firearm is unloaded before installing or adjusting the sights.
- Wear appropriate eye protection when using firearms equipped with these sights.
- If you have color vision issues, be aware that the front dot color may affect visibility. Consider contacting support for alternative options.
- Avoid using the sights in conditions where visibility is severely impaired (e.g., fog, heavy rain).
- Ensure that the sights are installed securely to prevent misalignment during use.

Instructions for Installation and Usage

1. Installation:

- It is recommended that a qualified gunsmith perform the installation of the sights to ensure proper alignment and secure fitting.
- If you choose to install the sights yourself, follow these steps:
 - Ensure the firearm is unloaded and pointed in a safe direction.
 - Remove the existing sights from the firearm using appropriate tools.
 - Align the BIG DOT TRITIUM SIGHTS in the sight mounting area.
 - Secure the sights according to the manufacturer's instructions.
 - Check for proper alignment and functionality before use.

2. Usage:

- Familiarize yourself with the sighting system before using it in a live environment.
- Practice aiming and shooting in a safe area to understand how the sights enhance your accuracy.
- Adjust your shooting technique as necessary to accommodate the larger dot size.

Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the sights in regular household waste.

- If the sights are damaged, contact local waste disposal services for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the BIG DOT TRITIUM SIGHTS, please reach out to the manufacturer directly through their official contact points.
