

# POLISHING COMPOUNDS - BROWNELLS POLISHING COMPOUND, WHITE ICE

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Compounds](#)

## Covers All Polishing Needs From Coarse Grit To Mirror Finish

Polishing abrasives have a myriad of uses in the shop. Cream Bobbing abrasive is coarse and aggressive for starting on metals with a rough surface. Brown Tripoli general purpose compound is a medium abrasive and safe for all metals. Gray Star is a medium cutting compound for harder metals like steel. White Ice is a fine abrasive compound for softer metals that require a delicate touch or as the final step in polishing steel. Green Flexible Multi-Purpose has a medium-to-fine cut and is safe for all metals; a good, all-around polish. Plastic Blue gives a mirror-smooth finish to acrylic, plastic, or fiberglass. Works great on plastic grip caps or forend tips. Green Rouge is a good choice for nickel, silver, or white gold. Blizzard Premium is a white compound that leaves an almost mirror finish on harder metals.

## Attributes

- Name: [BROWNELLS POLISHING COMPOUND, WHITE ICE](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 032000015

# Safety Instruction Guide for Brownells White Ice Polishing Compound

## Introduction

Thank you for choosing Brownells White Ice Polishing Compound. This guide provides essential safety instructions and guidelines to ensure the safe use of this product. Please read this manual carefully before using the polishing compound.

## General Safety Guidelines

- Always use the polishing compound in a wellventilated area to avoid inhaling dust or fumes.
- Keep the product out of reach of children and pets.
- Do not use the compound near open flames or sources of ignition.
- Wear appropriate personal protective equipment (PPE), including gloves, safety goggles, and a dust mask, to minimize exposure to dust and chemicals.
- Store the polishing compound in a cool, dry place, away from direct sunlight and heat sources.
- Check for any visible damage to the product before use. Do not use if the packaging is damaged.

## Specific Safety Precautions for Use

- Avoid skin contact with the polishing compound. If contact occurs, wash the affected area with soap and water immediately.
- In case of eye contact, rinse thoroughly with water for at least 15 minutes and seek medical attention if irritation persists.
- If inhaled, move to an area with fresh air. If symptoms persist, seek medical attention.
- Do not ingest the polishing compound. If swallowed, do not induce vomiting and seek medical attention immediately.
- Use the compound only for its intended purpose. Misuse can lead to hazardous situations.

## Instructions for Installation and Usage

- Before using the polishing compound, ensure that the surface to be polished is clean and free from debris.
- Apply a small amount of White Ice Polishing Compound to a clean, soft cloth or polishing pad.
- Gently rub the compound onto the surface using a circular motion. Do not apply excessive pressure.
- For best results, allow the compound to dry to a haze before buffing it off with a clean, dry cloth.
- Repeat the process as necessary until the desired finish is achieved.
- After use, securely close the container and store it properly.

## Disposal Instructions

- Dispose of any unused polishing compound and its packaging in accordance with local regulations.
- Do not dispose of the product in household waste. Check with local waste management authorities for proper disposal methods.
- Ensure that the product is fully used or disposed of before discarding the container.

## Contact Information for Further Support

For any safety inquiries or to report unsafe products, please contact your local authorities or refer to the EU Safety Gate platform for updates on recalls and safety alerts.

Thank you for following these safety instructions. Your safety is our priority.
