

POLISHING COMPOUNDS - BROWNELLS POLISHING COMPOUND, GREEN FLEXIBLE

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Compounds](#)

Covers All Polishing Needs From Coarse Grit To Mirror Finish

Polishing abrasives have a myriad of uses in the shop. Cream Bobbing abrasive is coarse and aggressive for starting on metals with a rough surface. Brown Tripoli general purpose compound is a medium abrasive and safe for all metals. Gray Star is a medium cutting compound for harder metals like steel. White Ice is a fine abrasive compound for softer metals that require a delicate touch or as the final step in polishing steel. Green Flexible Multi-Purpose has a medium-to-fine cut and is safe for all metals; a good, all-around polish. Plastic Blue gives a mirror-smooth finish to acrylic, plastic, or fiberglass. Works great on plastic grip caps or forend tips. Green Rouge is a good choice for nickel, silver, or white gold. Blizzard Premium is a white compound that leaves an almost mirror finish on harder metals.

Safety Instruction Guide for Polishing Compounds

Brownells Green Flexible Compound

Introduction

Thank you for choosing the Polishing Compounds Brownells Green Flexible Compound. This product is designed to assist in polishing various metals and materials. To ensure safe and effective use, please follow the safety guidelines outlined in this document.

General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Keep this product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as gloves, safety goggles, and a dust mask when handling the compound.
- Ensure proper ventilation in the area where the product is used to avoid inhalation of dust.
- Do not use the product near open flames or high heat sources.
- Always store the product in its original packaging in a cool, dry place away from direct sunlight.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The compound may produce dust that can be harmful if inhaled.
 - Prolonged skin contact may cause irritation.
- **Avoiding Hazards:**
 - Use in a wellventilated area to minimize dust accumulation.
 - Avoid direct contact with skin. If contact occurs, wash the area with soap and water.
 - If dust is generated, use a dust mask to prevent inhalation.
 - Do not eat, drink, or smoke while using the product to avoid ingestion of the compound.

Instructions for Installation and Usage

- **Preparation:**
 - Ensure the surface to be polished is clean and free of debris.
 - Gather all necessary tools and safety equipment before starting.
- **Application:**
 - Apply a small amount of the Green Flexible Compound to a clean polishing cloth or buffing wheel.
 - Gently rub the compound onto the surface in a circular motion.
 - For best results, use moderate pressure and allow the compound to work on the surface.
 - Wipe off excess compound with a clean cloth after polishing.
- **PostUse Care:**
 - Clean any tools used during application to prevent contamination.
 - Wash your hands thoroughly after handling the compound.

Disposal Instructions

- Dispose of any unused product and packaging in accordance with local regulations.
- Do not dispose of the product in household waste.
- Consider recycling packaging materials where facilities are available.

Contact Information for Further Support

For any safety inquiries or product information, please consult your local authorities or reach out to the manufacturer directly.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and effective experience using the Polishing Compounds Brownells Green Flexible Compound.
