

POLISHING COMPOUNDS - BROWNELLS POLISHING COMPOUND, PLASTIC BLUE

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Compounds](#)

Covers All Polishing Needs From Coarse Grit To Mirror Finish

Polishing abrasives have a myriad of uses in the shop. Cream Bobbing abrasive is coarse and aggressive for starting on metals with a rough surface. Brown Tripoli general purpose compound is a medium abrasive and safe for all metals. Gray Star is a medium cutting compound for harder metals like steel. White Ice is a fine abrasive compound for softer metals that require a delicate touch or as the final step in polishing steel. Green Flexible Multi-Purpose has a medium-to-fine cut and is safe for all metals; a good, all-around polish. Plastic Blue gives a mirror-smooth finish to acrylic, plastic, or fiberglass. Works great on plastic grip caps or forend tips. Green Rouge is a good choice for nickel, silver, or white gold. Blizzard Premium is a white compound that leaves an almost mirror finish on harder metals.

Attributes

- Name: [BROWNELLS POLISHING COMPOUND, PLASTIC BLUE](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 032000017

Safety Instruction Guide for Polishing Compounds

Brownells Plastic Blue Compound

Introduction

Thank you for choosing the Polishing Compounds Brownells Plastic Blue Compound. This guide provides important safety information to ensure the safe and effective use of this product. Please read and follow these instructions carefully.

General Safety Guidelines

- Always store the polishing compound in a cool, dry place away from direct sunlight.
- Keep out of reach of children and pets to prevent accidental ingestion or misuse.
- Use personal protective equipment (PPE) such as gloves and safety goggles when handling the compound to avoid skin and eye contact.
- Ensure proper ventilation in your workspace when using the polishing compound to minimize inhalation of dust or fumes.
- In case of an emergency or adverse reaction, seek medical attention immediately.

Specific Safety Precautions for Use

- Do not use the polishing compound on food-related items or surfaces.
- Avoid using the compound on materials that may react adversely, such as certain plastics or coatings.
- Do not mix with other compounds or chemicals unless specified by the manufacturer.
- Always test the compound on a small, inconspicuous area before applying it to the entire surface.
- If irritation occurs, discontinue use and wash the affected area with soap and water.

Instructions for Installation and Usage

1. Preparation:

- Clean the surface you intend to polish to remove any dirt, grease, or debris.
- Ensure that the area is well-ventilated.

2. Application:

- Apply a small amount of the Brownells Plastic Blue Compound to a clean polishing cloth or pad.
- Work the compound onto the surface using a circular motion.
- For best results, apply light pressure and allow the compound to do the work.

3. Finishing:

- After polishing, wipe the surface with a clean, dry cloth to remove any excess compound.
- Inspect the polished area for desired results. Repeat the application if necessary.

4. Cleaning Tools:

- Clean your polishing tools and pads with soap and water after use to prevent contamination.

Disposal Instructions

- Dispose of any leftover polishing compound according to local regulations.
- Do not dispose of the product in household waste. Contact your local waste disposal facility for proper disposal.

disposal methods.

Contact Information for Further Support

For any safety inquiries or additional information regarding the use of this product, please refer to the manufacturer's customer service or website.

By following these guidelines and instructions, you can ensure a safe and effective polishing experience with the Brownells Plastic Blue Compound. Your safety is our priority. Thank you for your attention to these important safety practices.
