Safety Instruction Guide for AR15/M16/M4 Hammer Springs

Introduction

Thank you for choosing the AR15/M16/M4 Hammer Springs from Brownells. These highquality replacement springs are designed to ensure the proper functioning of your AR15 rifle. This guide provides essential safety instructions and precautions to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always handle firearms and firearm components with care.
- Ensure that you are familiar with the operation and safety features of your rifle.
- Store springs and all firearm parts in a secure location, out of reach of children and unauthorized users.
- Inspect all components for damage or wear before installation.
- Report any unsafe products or accidents to local authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- **Potential Hazards:** Improper installation or use of hammer springs may result in firearm malfunction, which can lead to serious injury.
- **Avoiding Hazards:**
 - Do not attempt to install or replace hammer springs if you are not familiar with firearm assembly and disassembly.
 - Always ensure the firearm is unloaded before beginning any maintenance work.
 - Wear appropriate safety gear, such as safety glasses and gloves, when handling springs and firearm components.
 - Keep fingers and other body parts clear of moving parts during installation.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your AR15 is completely unloaded and the safety is engaged.
- Gather necessary tools: a punch tool, hammer, and any other tools required for disassembly and reassembly.

2. Disassembly:

- Remove the upper and lower receivers from the AR15.
- Carefully remove the existing hammer spring using a punch tool to depress the spring and release it from its housing.

3. Installation:

- Take the new hammer spring from the package.
- Align the new hammer spring with the hammer assembly.
- Using the punch tool, carefully compress the new spring and secure it in place.
- Ensure the spring is seated properly and functions smoothly.

4. Reassembly:

- Reattach the upper and lower receivers of the AR15.
- Perform a function check to ensure that the hammer operates correctly with the new spring.

5. Usage:

- Regularly inspect the hammer spring for signs of wear or damage.
- Replace the hammer spring as needed to maintain reliable operation of your firearm.

Disposal Instructions

- Dispose of any old or damaged springs responsibly.
- Follow local regulations for the disposal of firearm components.
- Consider recycling options if available.

Contact Information for Further Support

For safety inquiries or further support regarding the AR15/M16/M4 Hammer Springs, please refer to the contact information provided with your product or on the packaging.

Thank you for prioritizing safety and compliance while using your AR15/M16/M4 Hammer Springs. Your attention to these guidelines helps ensure a safe and enjoyable experience with your firearm.
