A Lock Washer Designed Correctly for Your '60s M16A1 Clone

If you're serious about building a period-correct, authentic-looking M16A1 rifle, then little components matter, like the lock washer used to attach the flash suppressor to your clone's barrel. Luckily, Brownells offers a period-correct lock washer for the flash suppressor used on the original M16A1, allowing you to build your perfect clone. This lock washer is also correct for use on earlier AR-style rifles, such as the XM16E1.

M16A1 Flash Suppressor Lock Washer Safety Instruction Guide

Introduction

Thank you for choosing the M16A1 Flash Suppressor Lock Washer from Brownells. This product is designed for use in building periodcorrect M16A1 rifles and earlier ARstyle rifles, such as the XM16E1. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always ensure that the M16A1 Flash Suppressor Lock Washer is compatible with your specific firearm model before installation.
- Use only as intended. This product is designed for specific applications and should not be modified for other uses.
- Keep all components and tools out of reach of children and unauthorized users.
- Regularly inspect your firearm and its components for wear and damage.
- In case of any malfunction or unusual behavior, cease use immediately and consult a qualified gunsmith.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before beginning installation.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, during installation.
- Do not force the lock washer into place; it should fit securely without excessive pressure.
- Be aware of sharp edges on the lock washer and other components that could cause injury.
- Follow all local laws and regulations regarding firearm modifications and usage.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is unloaded and placed on a stable surface.
- Gather necessary tools, including a wrench suitable for the flash suppressor.

2. Installation Steps

- Remove the existing flash suppressor if applicable.
- Place the M16A1 Flash Suppressor Lock Washer onto the barrel where the flash suppressor will be attached.
- Align the flash suppressor with the lock washer and barrel.
- Securely tighten the flash suppressor using the appropriate tool, ensuring that the lock washer is properly seated.
- Verify that the flash suppressor is securely attached and that there is no movement.

3. PostInstallation Checks

- Conduct a function check of the firearm to ensure it operates correctly.
- Inspect the installation to confirm that the lock washer is in place and the flash suppressor is secure.

Disposal Instructions

- Dispose of any packaging materials responsibly by recycling where possible.
- If the lock washer is damaged or no longer needed, dispose of it in accordance with local waste disposal regulations.
- Do not dispose of the lock washer in a manner that could pose a risk to the environment or public safety.

Contact Information for Further Support

For any questions or concerns regarding the M16A1 Flash Suppressor Lock Washer, please refer to the product packaging or visit the manufacturer's website for additional resources and support.

Conclusion

By following these safety instructions, you can ensure the proper and safe use of the M16A1 Flash Suppressor Lock Washer. Always prioritize safety and compliance with local laws when handling firearms and their components. Thank you for your commitment to safety and responsible firearm ownership.
