

S&W PARTS KIT #1 SINGLE PACK

[Handgun Parts](#) > [Sights](#) > [Sight Parts](#) > [Sight Parts Kits](#)

Parts Required For S&W Factory Rear Sights

Windage screws must be broken anytime a standard sight blade is replaced; here are the replacements. Some "J" frame models may use a smaller head diameter. The screw in this kit has a .217" diameter head.

Safety Instruction Guide for S&W Parts Kit #1

Introduction

Thank you for choosing the S&W Parts Kit #1. This guide provides essential safety instructions and information to ensure the safe use and handling of this product. Please read this guide carefully before using the kit.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the parts kit out of reach of children and vulnerable individuals.
- Inspect the product for any visible damage before use.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate safety gear, such as goggles and gloves, when handling small parts.
- Avoid using the product in wet or damp conditions to prevent slipping or electrical hazards.
- Ensure that all components are securely fastened before use to avoid accidental detachment.
- Be cautious when replacing windage screws, as improper installation may affect sight alignment and safety.
- If you are unsure about any aspect of the installation or use, seek assistance from a qualified professional.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools, including a screwdriver compatible with the screws in the kit.
- Ensure that you are working in a clean and welllit area.

2. Removing the Old Sight Blade

- Carefully remove the existing sight blade using the appropriate screwdriver.
- Keep all removed parts in a safe location for future reference.

3. Installing the New Windage Adjustment Screw

- Take the new windage adjustment screw from the kit.
- Align the screw with the mounting hole and insert it gently.
- Use the screwdriver to tighten the screw securely, ensuring that it is not overtightened.

4. Installing Detent Plungers and Springs

- Locate the detent plungers and springs in the kit.
- Insert the detent plungers into their designated positions.
- Carefully place the springs over the plungers, ensuring they are seated properly.

5. Final Checks

- Doublecheck all components to ensure they are securely installed.

- Test the sight alignment and make any necessary adjustments.

Disposal Instructions

- Dispose of any unused or broken parts in accordance with local regulations.
- Do not dispose of the product in regular household waste. Instead, use designated recycling facilities for electronic and mechanical components.

Contact Information for Further Support

For further assistance or inquiries regarding safety, please consult the appropriate authorities or your local retailer. Always ensure that you have the latest information regarding product safety and compliance.

Thank you for your attention to these safety guidelines. Enjoy using your S&W Parts Kit #1 responsibly!
