## Convenient 12 Paks Of The Most Useable Sizes For Scope Mounting Applications

Refill your Leupold factory screw kit or keep these extra-strong, heat-treated screws on hand for your customers and yourself. We've put together the most requested screw sizes in money-saving 12 Paks so it's easier to convert existing rings and bases to Torx head without having to buy more than you need. These are the same screws used by Leupold but will fit many other brands of rings and bases.

# LEUPOLD TORX SCREWS SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing LEUPOLD Torx Screws, designed for secure and reliable fastening in various applications. This guide provides essential safety instructions, usage guidelines, and disposal information to ensure your safety and the proper use of this product.

## General Safety Guidelines

- Ensure that you read and understand all instructions before using the product.
- Keep the screws out of reach of children to prevent accidental ingestion or injury.
- Inspect the product for any signs of damage before use. Do not use damaged screws.
- Use only the recommended tools for installation to avoid injury or damage to the screws.
- Follow all local regulations regarding the use and disposal of metal products.

## Specific Safety Precautions for Use

- Use safety goggles and gloves when handling screws to protect against sharp edges.
- Avoid overtightening screws, as this can lead to material failure or damage.
- Ensure that the surface where the screws will be installed is clean and free from debris.
- Do not mix different types or sizes of screws in the same application to prevent compatibility issues.
- If you experience any resistance during installation, stop and reassess the situation to avoid stripping the screw or damaging the material.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools including a Torx screwdriver compatible with the screw size.
- Ensure that the work area is welllit and organized.

### 2. Installation Steps:

- Position the screw in the predrilled hole.
- Align the Torx screwdriver with the screw head.
- Turn the screwdriver clockwise to drive the screw into the material.
- Stop turning when the screw is flush with the surface or when the recommended torque is reached.  
Do not exceed the torque specifications for the material you are working with.

### 3. PostInstallation:

- Check that all screws are securely fastened and that there are no loose components.
- Clean the work area of any debris or leftover screws to prevent accidents.

## Disposal Instructions

- Dispose of any unused screws in accordance with local regulations.
- Recycle metal screws where possible to minimize environmental impact.
- If the screws are damaged or no longer usable, dispose of them in a manner that prevents injury to others.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of LEUPOLD Torx Screws, please refer to the product packaging for the relevant contact information. You may also check for recall updates and safety alerts on the EU Safety Gate platform.

By following these guidelines, you can ensure the safe and effective use of LEUPOLD Torx Screws. Thank you for your attention to safety and for choosing our product.
