

1911 LUG CUTTER COMPONENTS - 1911 LUG CUTTER HANDLE W/0.195" CUTTER KIT

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Barrel Tools](#) > [Barrel Lug Tools](#)

A hand operated, carbide cutter easily trims excess material from the bottom barrel lug when fitting custom or factory barrels to 1911 autos. These cutters remove material from the barrel lugs in a parallel fashion, and with the correct height and radius, to help produce the best possible lockup. It is recommended to use the 0.186" cutter first, then progress to the 0.195" cutter if more material needs to be removed. Follow with careful hand fitting to achieve a firm, non-binding barrel-to-slide fit. Start small and check your work often. It is possible, with some slide/barrel combinations, that the 0.195" cutter could remove more material than necessary. Fits all 1911 Auto, Commander, Officer, single and double-stack frames. The 0.186" Lug Cutter, and 0.195" model are available with or without the handle. The handle is also available individually.

Attributes

- Name: [1911 LUG CUTTER HANDLE W/0.195" CUTTER KIT](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080000068

Safety Instruction Guide for 1911 Lug Cutter Components

Introduction

Thank you for choosing the 1911 Lug Cutter Components. This product is designed to assist you in fitting custom or factory barrels to your 1911 autos safely and effectively. It is essential to follow all safety guidelines and instructions to ensure a safe and successful experience.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in this manual.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the cutter.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the cutter for any damage or wear before each use. Do not use if damaged.
- Use the cutter in a welllit and uncluttered workspace to minimize the risk of accidents.
- Be cautious of sharp edges and points when handling the cutter.
- Report any unsafe conditions or productrelated accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always start with the smaller cutter (0.186") before progressing to the larger cutter (0.195") to avoid removing too much material.
- Check your work frequently to ensure proper fitting and prevent overcutting.
- Use hand tools carefully and apply even pressure to avoid slips.
- Ensure that the workpiece is securely held in place to avoid movement during cutting.
- Avoid using excessive force when operating the cutter to prevent damage to the tool or workpiece.
- If you experience any difficulty or if the cutter binds, stop immediately and assess the situation before continuing.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials, including the 1911 Lug Cutter, appropriate cutter size, and safety gear.
- Ensure the barrel and slide are clean and free of debris.

2. Choosing the Cutter:

- Begin with the 0.186" cutter for initial trimming.
- If further material removal is necessary, switch to the 0.195" cutter.

3. Using the Cutter:

- Position the cutter over the barrel lug that requires trimming.
- Apply gentle, even pressure while turning the cutter to remove material in a parallel manner.
- Regularly check the fit of the barrel to the slide after each cut to ensure a proper fit.

4. Final Fitting:

- After achieving the desired fit with the cutter, proceed with careful hand fitting to ensure a firm,

- nonbinding barreltoslide fit.
- Make small adjustments and check frequently to avoid overfiling.

5. PostUse Care:

- Clean the cutter after use to remove any debris or material buildup.
- Store the cutter in a safe place, out of reach of children.

Disposal Instructions

- Dispose of any unused or damaged cutters and components in accordance with local regulations.
- Do not throw away in regular household waste. Check for recycling options or hazardous waste disposal facilities in your area.

Contact Information for Further Support

For safety inquiries or further support, please refer to the product packaging or the manufacturer's website for contact information.

By following these guidelines and instructions, you can ensure a safe and effective experience with your 1911 Lug Cutter Components. Always prioritize safety and report any concerns regarding product safety or performance. Thank you for your attention and commitment to safe practices.
