## Longer Bits Reach Through Rings

BROWNEILLS MAGNA-TIP® SEE-THRU RING BITS The Brownells MAGNA-TIP® See-Thru Ring Bits are specialized tools designed to facilitate the installation and removal of scope rings with see-through mounts. These extra-long bits are engineered to reach through the scope rings, allowing for efficient engagement with the mounting screws without necessitating scope removal.

**Description and Features:** Extra-Long Design: The extended length of these bits enables them to reach through see-through scope rings, providing direct access to the mounting screws. This design feature eliminates the need to remove the scope during installation or adjustment, thereby preserving the scope's alignment and zero. Precision Fit: Each bit is hollow-ground to ensure a precise fit in slotted screws, minimizing the risk of cam-out and potential damage to the screw heads or firearm components. Durable Construction: Crafted from hardened steel, these bits offer exceptional strength and longevity, making them suitable for repeated use in demanding gunsmithing tasks. Available Options: The MAGNA-TIP® See-Thru Ring Bits are available in specific sizes to accommodate common screw dimensions used in scope mounts: #6 Slot: Shank Diameter (SD) = .180 inches, Blade Thickness (BT) = .037 inches. #8 Slot: Shank Diameter (SD) = .210 inches, Blade Thickness (BT) = .037 inches. 3/32" Hex: Designed to fit Leupold scope rings. 7/64" Hex: Designed to fit Redfield scope rings. T-10 Torx: Suitable for certain scope ring screws. T-15 Torx: Suitable for certain scope ring screws. Specifications:

**Material:** Hardened steel **Bit Type:** Hollow ground slotted and hex

**Compatibility:** Designed for use with Brownells MAGNA-TIP® handles

**Customer Insights:** Our customers report that the MAGNA-TIP® See-Thru Ring Bits are invaluable additions to their gunsmithing toolkits. The extra-long design allows for easy access to scope ring screws without removing the scope, preserving alignment and zero. Customers appreciate the precision fit of the bits, which minimizes the risk of damaging screw heads or firearm components during maintenance. The durable construction ensures these bits withstand repeated use in demanding tasks. Incorporating the Brownells MAGNA-TIP® See-Thru Ring Bits into your gunsmithing toolkit ensures you have the specialized tools necessary for efficient and precise scope mounting and maintenance tasks.

## Attributes

- Name: [BROWNEILLS T-10 TORX SEE THRU BIT](#)
- Manufacturer: [BROWNEILLS](#)
- Product no.: 080000077
- Mfr. No.:
- Bit Number: T10
- Blade Diameter: -
- Blade Thickness: .107
- Color: -
- Handle: No Handle
- Kit: -

- Material: -
- Model Number: T-10 Torx Bit
- Style: See-Thru Ring,Torx
- Delivery weight: 0.007kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 050806005181

# Safety Instruction Guide for MAGNATIP® SEETHRU RING BITS

## Introduction

Thank you for choosing the MAGNATIP® SEETHRU RING BITS by BROWNELLS. These extralong bits are designed to provide convenience and efficiency when working with scope rings. This guide contains important safety instructions and guidelines to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Ensure that all tools are used in accordance with the manufacturer's instructions.
- Keep the work area clean and welllit to avoid accidents.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, while using power tools.
- Store the bits in a dry, secure location, out of reach of children and pets.
- Regularly inspect the bits for wear or damage before use; do not use damaged bits.
- Dispose of any damaged bits properly to prevent injury.

## Specific Safety Precautions for Use

- Use the proper size bit for the screws being worked on to prevent stripping or breaking.
- Avoid applying excessive force when using the bits; let the tool do the work.
- Do not use the bits with power tools unless they are specifically designed for such use.
- Keep hands and other body parts away from the rotating elements of power tools.
- Be aware of your surroundings and ensure that no one is in proximity when using the bits.

## Instructions for Installation and Usage

### 1. Selecting the Right Bit:

- Choose the appropriate bit from the set for the screw size you are working with. The set includes bits for #6 and #8 slotted screws, as well as T10 and T15 TORX screws.

### 2. Preparing for Use:

- Ensure that your workspace is clean and free of any obstructions.
- Gather all necessary tools and equipment before starting.

### 3. Using the Bits:

- Insert the selected bit into the drill or screwdriver.
- Align the bit with the screw head and apply gentle pressure.
- Turn the tool in the direction specified for tightening or loosening the screw.
- If resistance is met, stop and reassess rather than forcing the bit.

### 4. After Use:

- Clean the bits to remove any debris or residue.
- Store the bits in their designated case to prevent damage.

## Disposal Instructions

- Dispose of any broken or wornout bits in accordance with local regulations.
- Do not throw bits in regular household waste; instead, use designated recycling facilities if available.

## Contact Information for Further Support

For any safety inquiries or additional support, please reach out to the manufacturer or your retailer. Ensure you have the product details, including the model and any relevant information, to assist with your inquiry.

By following these safety instructions and guidelines, you can ensure a safe and effective experience when using the MAGNATIP® SEETHRU RING BITS. Thank you for your attention to safety.
