

# RECEIVER FACING CUTTER & PILOTS - BROWNELLS 1.5" RECEIVER FACING CUTTER

[Gunsmith Tools](#) > [Rifle Tools](#) > [Action & Bolt Trueing Tools](#)

## Trues The Receiver Face For A Highly Accurate Rifle; Eliminates Lathe Work

Hardened steel cutter and pilots provide the perfect combo for accurizing Remington 700 and AR-15 actions without a lathe. Large, 1½" diameter cutter squares the receiver face to the boltway for precise mating to the barrel. Twelve, 90° flutes deliver even pressure and a smooth, chatter-free cut when used with Brownells Muzzle Facing & Chamfering T-Handle, shown below, or our Drill Chuck Adaptor. .700" diameter pilot fits factory-original, Remington 700 receivers.

## BROWNELLS 1.5" RECEIVER FACING CUTTER

### Safety Instructions

#### Introduction

Thank you for choosing the Brownells 1.5" Receiver Facing Cutter. This tool is designed for accurately facing the receiver of Remington 700 and AR15 actions without the need for a lathe. To ensure safe and effective use of this product, please read and follow the safety instructions outlined in this guide.

#### General Safety Guidelines

- Always wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the cutter.
- Ensure that the work area is clean, welllit, and free of any unnecessary clutter.
- Keep the tool out of reach of children and unauthorized users.
- Do not use the tool for purposes other than its intended use.
- Regularly inspect the cutter and pilots for any signs of wear or damage before each use.
- Report any unsafe conditions or accidents to the appropriate authorities.

#### Specific Safety Precautions for Use

- Make sure the cutter is securely attached to the drill or Thandle before use.
- Use the cutter only with compatible receivers as specified in the product specifications.
- Avoid excessive force while cutting to prevent tool damage or injury.
- Do not attempt to modify the cutter or its components.
- Always follow the manufacturer's instructions for use and maintenance.
- In case of an accident, seek medical attention immediately.

#### Instructions for Installation and Usage

##### 1. Preparation

- Gather all necessary tools and materials, including the Brownells Muzzle Facing & Chamfering THandle or Drill Chuck Adaptor.
- Ensure you have the correct pilot size for your receiver. The .700" diameter pilot is designed for factoryoriginal Remington 700 receivers.

##### 2. Installation

- Attach the cutter securely to the Thandle or drill chuck.
- Insert the appropriate pilot into the cutter.

##### 3. Cutting Process

- Position the receiver securely on a stable surface.
- Align the cutter with the receiver face and ensure it is perpendicular to the surface.
- Start the drill or Thandle at a low speed to ensure control.
- Gradually increase the speed as needed, applying even pressure without forcing the cutter.
- Monitor the cutting process to ensure a smooth and even cut.
- Once finished, turn off the drill or Thandle and remove the cutter from the receiver.

#### **4. PostUse Care**

- Clean the cutter and pilots after each use to remove any debris or residue.
- Store the cutter and pilots in a safe, dry place away from moisture and extreme temperatures.

### **Disposal Instructions**

- Dispose of the cutter and pilots according to local regulations.
- Do not dispose of the tool in regular household waste.
- Consider recycling options for metal components if available in your area.

### **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of the Brownells 1.5" Receiver Facing Cutter, please reach out to your local distributor or consult the manufacturer's website for further assistance.

By following these safety instructions, you can ensure a safe and effective experience when using the Brownells 1.5" Receiver Facing Cutter. Thank you for prioritizing safety in your work.
