

LATHE CENTERING BAR - BROWNELLS LATHE CENTERING BAR 1-1/4"X24"

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Machinist Accessories](#)

Eliminate Errors Caused By Faulty Alignment

Steel bar lets you set up and check the trueness of your lathe. Accurately confirms the alignment of centers and helps precisely offset the tailstock for cutting tapers. Recesses on each end align headstock and tailstock centers to prevent taper cuts. Available in 1¼" x 24".

Safety Instruction Guide for LATHE CENTERING BAR

Introduction

Thank you for choosing the Brownells Lathe Centering Bar. This guide provides essential safety instructions and usage guidelines to ensure the safe operation of the product. Please read this document carefully before using the lathe centering bar.

General Safety Guidelines

- Ensure that the lathe centering bar is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when operating machinery.
- Keep the work area clean and welllit to prevent accidents.
- Do not use the lathe centering bar for any purpose other than its intended use.
- Ensure that all safety guards on the lathe are in place before use.
- Be aware of your surroundings and ensure that others are at a safe distance while operating the lathe.

Specific Safety Precautions for Use

- Inspect the lathe centering bar for any damage before use. Do not use if damaged.
- Ensure the lathe is properly set up and secured before using the centering bar.
- Use the centering bar only on lathes that are compatible with its dimensions (1¼" x 24").
- Avoid wearing loose clothing or jewelry that could become caught in the machinery.
- Keep hands and other body parts away from moving parts of the lathe during operation.
- If you experience any unusual sounds or vibrations while using the lathe, stop immediately and investigate.

Instructions for Installation and Usage

1. Installation

- Place the lathe centering bar in the headstock of the lathe.
- Align the recesses on each end with the centers of the headstock and tailstock.
- Secure the centering bar in place according to the lathe's operating instructions.

2. Usage

- Use the centering bar to check the alignment of the lathe centers.
- Adjust the tailstock as necessary to ensure accurate alignment for taper cuts.
- Regularly check the alignment during the machining process to maintain precision.

Disposal Instructions

- Dispose of the lathe centering bar in accordance with local regulations.
- If the product is no longer usable, consider recycling the steel material where possible.

Contact Information for Further Support

For any safety inquiries or further support regarding the Brownells Lathe Centering Bar, please reach out to your local distributor or the manufacturer's customer service.

Conclusion

By following these safety guidelines and instructions, you can ensure a safe and effective experience while using the Brownells Lathe Centering Bar. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention to these important details.
