

BOLT ACTION FIRING PIN REMOVAL TOOL - FIRING PIN REMOVAL TOOL

[Gunsmith Tools & Supplies](#) > [Rifle Tools](#) > [Bolt Tools](#) > [Firing Pin Removal Tools](#)

Quickly Remove Firing Pins From Remington & Ruger~ Rifles

A third hand for removing the firing pin from Remington and Ruger® bolt action rifles without lost parts or sore fingers that sometimes accompany this tricky job. Install the correct bushing for your rifle in the end of the tool body. Screw the firing pin assembly into the bushing, and tighten the threaded, steel shank to compress and capture the mainspring. The hollow shank protects the firing pin tip as it slides over the pin to compress the spring. The crosspin can then be driven out with a punch, and the spring tension relieved by gradually loosening the shank. Includes bushings for Remington 700 family and Ruger M77® Mark II rifles. Built-in storage slot holds the unused bushing on the tool body, so it's always there when you need it. NOTE: Will not fit Ruger Left hand actions.

Attributes

BOLT ACTION FIRING PIN REMOVAL TOOL Safety Instruction Guide

Introduction

Thank you for choosing the BOLT ACTION FIRING PIN REMOVAL TOOL. This tool is designed to assist in the safe removal of firing pins from Remington and Ruger® bolt action rifles. Please read this safety instruction guide thoroughly to ensure safe usage and to understand the necessary precautions.

General Safety Guidelines

- Ensure that the tool is used only for its intended purpose, which is the removal of firing pins from bolt action rifles.
- Always handle the tool and firearms with care to prevent accidents or injuries.
- Keep the tool out of reach of children and individuals who may not understand its use.
- Regularly inspect the tool for wear and damage. Do not use if any part is compromised.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always work in a welllit area to ensure visibility while using the tool.
- Wear safety glasses to protect your eyes from any potential debris.
- Ensure that the firearm is unloaded before attempting to remove the firing pin.
- Follow the manufacturer's instructions carefully when installing and using the tool.
- Use the tool with caution to avoid pinching fingers or causing injury.
- Do not attempt to modify or alter the tool in any way.

Instructions for Installation and Usage

1. Preparation

- Confirm the firearm is unloaded and in a safe condition.
- Gather all necessary tools and ensure you have the correct bushing for your rifle.

2. Installation of Bushing

- Select the appropriate bushing for your Remington or Ruger® rifle model.
- Insert the bushing into the end of the tool body securely.

3. Firing Pin Assembly

- Carefully screw the firing pin assembly into the bushing.
- Tighten the threaded, steel shank to compress and capture the mainspring.

4. Compression of the Spring

- The hollow shank will protect the firing pin tip as it slides over the pin.
- Ensure the spring is fully compressed before proceeding.

5. Removal of the Crosspin

- Use a punch to drive out the crosspin once the spring is compressed.
- Gradually loosen the shank to relieve spring tension safely.

6. Completion

- Once the firing pin is removed, store the unused bushing in the builtin storage slot on the tool body for future use.
- Always clean the tool after use and store it in a safe location.

Disposal Instructions

- Dispose of the tool in accordance with local regulations regarding metal and tool disposal.
- Do not discard in regular household waste. Consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the BOLT ACTION FIRING PIN REMOVAL TOOL, please refer to the manufacturer or retailer for assistance.

Thank you for your attention to these safety instructions. Enjoy the safe and effective use of your BOLT ACTION FIRING PIN REMOVAL TOOL.
