

# PILLAR BEDDING SLEEVES - SHORT PILLAR BEDDING SLEEVES

[Gunsmith Tools & Supplies](#) > [Stock Work & Finishing](#) > [Pillar Bedding](#) > [Pillar Bedding Sleeves](#)

## Ultimate Action-To-Wood Fit For Superb Sporting Rifle Accuracy

BROWNELLS PILLAR BEDDING SLEEVES Strong, lightweight aluminum sleeves provide a rock-solid fit between bottom metal and action to maximize accuracy from your hunting or target rifle. Far more stable than traditional stock-to-metal fitting methods, these sleeves work best with ACRAGLAS® family of bedding epoxies. Exterior grooves maximize gripping area for bedding epoxy to guarantee that even the most frequent disassembly won't loosen these sleeves. SPECS: Machined aluminum. 9/16" (14mm) diameter sleeve .3" (7.5mm) diameter center hole (letter drill size N). Short sleeve 1" (2.5cm) nominal. Long sleeve 1½" (3.8cm) nominal. Cut to fit. Sold in pairs of Long, Short, or Combo of 1 each

# PILLAR BEDDING SLEEVES SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the Pillar Bedding Sleeves by Brownells. This guide provides essential safety instructions to ensure the proper use, installation, and disposal of the product. It is important to follow these guidelines to maximize safety and performance.

## General Safety Guidelines

- Always read and understand the instructions before using the product.
- Ensure that the bedding sleeves are compatible with your specific rifle model.
- Inspect the product for any damage before installation.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the relevant authorities.
- Regularly check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the Pillar Bedding Sleeves only as intended—to provide a secure fit between the bottom metal and action of your rifle.
- Avoid using the product with incompatible bedding epoxies other than the ACRAGLAS® family.
- Ensure that the sleeves are properly installed to prevent loosening during use.
- Do not exceed the recommended dimensions when cutting the sleeves to fit.
- Wear safety goggles and gloves when handling sharp tools or cutting the sleeves.

## Instructions for Installation and Usage

### 1. Preparation

- Gather the necessary tools, including a cutting tool, measuring tape, and bedding epoxy.
- Ensure a clean and dry workspace.

### 2. Measuring and Cutting

- Measure the required length for the bedding sleeves based on your rifle specifications.
- Cut the sleeves to the desired length, ensuring the ends are smooth and free from burrs.

### 3. Applying Bedding Epoxy

- Mix the ACRAGLAS® bedding epoxy according to the manufacturer's instructions.
- Apply the epoxy generously to the exterior grooves of the sleeves to maximize grip.

### 4. Installation

- Insert the sleeves into the bottom metal of the rifle, ensuring a snug fit.
- Allow the epoxy to cure as per the manufacturer's guidelines before using the rifle.

### 5. PostInstallation Check

- After the epoxy has cured, check that the sleeves are securely in place.
- Ensure that the rifle functions properly and that there are no loose components.

## **Disposal Instructions**

- Dispose of any unused product or packaging in accordance with local regulations.
- Do not dispose of the product in household waste if it contains hazardous materials.
- Consider recycling options where available.

## **Contact Information for Further Support**

For any questions or concerns regarding the Pillar Bedding Sleeves, please reach out to our customer support team or refer to the product documentation for additional guidance.

By adhering to these safety instructions, you can ensure a safe and effective experience with your Pillar Bedding Sleeves. Thank you for your attention to safety!
