# FOREIGN WEAPONS FIELD PACK SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the FOREIGN WEAPONS FIELD PACK. This product is designed to assist in the maintenance and servicing of various Soviettype foreign weapons. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always handle tools and equipment with care to avoid injury.
- Use the FOREIGN WEAPONS FIELD PACK only for its intended purpose.
- Keep the pack and its contents out of reach of children and unauthorized users.
- Regularly inspect tools for damage or wear before use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that you are familiar with the operation of each tool before use.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using tools.
- Avoid using damaged tools; replace or repair them before attempting to use them.
- Do not exceed the recommended usage limits for any tool included in the pack.
- When field stripping weapons, follow the manufacturer's instructions for each specific weapon.
- Keep the work area clean and organized to prevent accidents.
- Be cautious of sharp edges and points on tools and weapon parts.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the weapon is unloaded and in a safe condition before beginning any maintenance.
- Gather all necessary tools from the FOREIGN WEAPONS FIELD PACK.

### 2. Using the Tools

- **Broken Shell Extractors:** Use the correct caliber extractor for the shell casing you are removing. Insert the extractor into the chamber and follow the extraction process as per the weapon's manual.
- **Go/NoGo Gauges:** Use these gauges to check the chamber and headspace of the weapon. Insert the gauge into the chamber to determine if the weapon is within specification.
- **Screwdrivers and Pliers:** Use the appropriate size screwdriver for screws and bolts. Use pliers for gripping and turning components.
- **Hammers:** Use the nylon/brass hammer for nonmarring applications. The ball peen hammer is suitable for driving punches and shaping metal.
- **Wrenches and Files:** Use the adjustable wrench for fastening and loosening bolts. Use the mill file to smooth edges and surfaces.
- **Punch Sets:** Use the starter and pin punch sets for driving pins in and out of the weapon components.

### 3. Cleaning and Maintenance

- Regularly clean tools after use to prevent rust and damage.
- Store tools in the provided heavyduty O.D. green Cordura nylon case to protect them from environmental damage.

## **Disposal Instructions**

- Dispose of any broken or damaged tools responsibly. Follow local regulations for hazardous waste if applicable.
- Do not throw tools or equipment in regular trash. Check with local authorities for proper disposal methods.

## **Contact Information for Further Support**

For safety inquiries or further assistance, please contact your local EU authority or visit the EU's Safety Gate platform for updates on product recalls and safety information.

Thank you for your attention to these safety instructions. Your safety is our priority.
