

MAGNA-TIP® PROFESSIONAL SUPER SET - BROWNELLS MAGNA-TIP PROFESSIONAL SUPER SET W/ADJ TORQUE HANDLE

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Screwdrivers & Sets](#) > [Magna-Tip Sets](#)

Brownells is proud to introduce the ultimate Magna-Tip screwdriver set for the professional gunsmith or serious hobbyist. The Professional Super Set contains 120 Magna-Tip bits—the largest selection we’ve ever offered in a Magna-Tip set. Custom grinding bits for a proper fit, or having to put a crucial project on hold while you wait for a specialty screwdriver to arrive are worries of the past, because you’ll always have at your fingertips the correct bit for almost any gun screw. Proper-fitting bits prevent damage to screw slots, so when you’re done the screws are in pristine condition—a sure sign of truly professional gunsmithing work. Made from the same hardened steel used in high-speed industrial impact drivers, these bits are hollow-ground for a no-slip seat in the screw slot, and are precision-balanced to transmit maximum torque smoothly and evenly to the screw. The set includes 75 straight, 4 Phillips, 17 hex (Allen), 11 Torx®, and 13 specialty bits for sights, scope mounts, grip bushings, Ruger ejectors, and other unique applications, plus the handy Magna-Tip Choke Tube Wrench and a hex-to-square adapter that lets you use your Magna-Tip handles to drive ¼" drive sockets. The kit’s seven driver handles ensure you have the handle best suited to any situation. You get the full-size #81 Handle, #84 Hollow Handle, magnetic Law Enforcement Handle, Law Enforcement Hollow Handle, Compact Law Enforcement Handle, the popular Stubby, and our Magna-Tip Ratchet Handle. The heavy duty, three-way Ratchet Handle provides extra leverage for maximum torque transfer to tighten or loosen stubborn screws. The set is also available with all of the above items, including the Ratchet Handle, plus our Adjustable Torque Handle. The Torque Handle ensures you apply the exact amount of required torque in 1 in-lb. increments from 10 to 70 in-lb. to eliminate guesswork and prevent over-or under-tightening critical screws. Both versions of the set come with a sturdy benchtop storage block to organize and store all the bits and handles. The Professional Super Set is truly the most versatile screwdriver system you’ll ever use—and quite possibly the last one you’ll ever have to buy!

Attributes

- Name: [BROWNELLS MAGNA-TIP PROFESSIONAL SUPER SET W/ADJ TORQUE HANDLE](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080000531

MAGNATIP® PROFESSIONAL SUPER SET Safety Instruction Guide

Introduction

Thank you for choosing the MAGNATIP® PROFESSIONAL SUPER SET by Brownells. This comprehensive screwdriver set is designed for professional gunsmiths and serious hobbyists. To ensure your safety and the optimal performance of this tool, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Always use the MAGNATIP® bits and handles according to the manufacturer's instructions.
- Keep the tool and its components out of reach of children and vulnerable individuals.
- Inspect the tool and its components before each use for any signs of wear or damage.
- Use the appropriate bit for the specific screw type to prevent slippage and damage.
- Store the tool in a dry, secure location when not in use to prevent accidents.

Specific Safety Precautions for Use

• Proper Handling:

- Always grip the handle firmly while using the tool to maintain control.
- Avoid using excessive force when tightening or loosening screws to prevent damage to the tool and screws.

• Bit Usage:

- Ensure that the bit is properly seated in the screw slot before applying torque.
- Do not use damaged or worn bits, as they may break and cause injury.

• Torque Handle:

- When using the Adjustable Torque Handle, set the desired torque level according to the specifications of the screw being used.
- Do not exceed the maximum torque limit to avoid damaging the screw or the tool.

• Ratchet Handle:

- Ensure the Ratchet Handle is engaged properly before use to allow for smooth operation.
- Avoid using the Ratchet Handle on screws that are severely rusted or corroded, as this may lead to tool failure.

Instructions for Installation and Usage

1. Selecting the Right Bit:

- Identify the type of screw you will be working with.
- Choose the corresponding MagnaTip bit from the set.

2. Attaching the Bit:

- Insert the selected bit into the handle until it clicks into place.
- Ensure it is securely fastened before use.

3. Using the Tool:

- For standard screws, use the appropriate handle (fullsize, stubby, or others) based on the access and torque needed.
- For precision work, use the Torque Handle to apply the correct amount of force.

4. Storing the Tool:

- After use, clean the bits and handles to remove any debris.
- Place all components back into the benchtop storage block to keep them organized and protected.

Disposal Instructions

- Dispose of any damaged or worn bits and handles in accordance with local regulations.
- Do not dispose of the tool in household waste. Instead, check local recycling guidelines for proper disposal of metal and plastic components.

Contact Information for Further Support

For safety inquiries or additional support regarding the MAGNATIP® PROFESSIONAL SUPER SET, please refer to the contact information provided with your product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective experience with your MAGNATIP® PROFESSIONAL SUPER SET. Thank you for your attention to safety, and enjoy using your new tool!
