

# MAGNA-TIP® PROFESSIONAL SUPER SET - MAGNA-TIP PROFESSIONAL SUPER SET

[Gunsmith Tools & Supplies](#) > [General Gunsmith Tools](#) > [Screwdrivers & Sets](#) > [Magna-Tip Sets](#)

Brownells is proud to introduce the ultimate Magna-Tip screwdriver set for the professional gunsmith or serious hobbyist. The Professional Super Set contains 120 Magna-Tip bits—the largest selection we've ever offered in a Magna-Tip set. Custom grinding bits for a proper fit, or having to put a crucial project on hold while you wait for a specialty screwdriver to arrive are worries of the past, because you'll always have at your fingertips the correct bit for almost any gun screw. Proper-fitting bits prevent damage to screw slots, so when you're done the screws are in pristine condition—a sure sign of truly professional gunsmithing work. Made from the same hardened steel used in high-speed industrial impact drivers, these bits are hollow-ground for a no-slip seat in the screw slot, and are precision-balanced to transmit maximum torque smoothly and evenly to the screw. The set includes 75 straight, 4 Phillips, 17 hex (Allen), 11 Torx®, and 13 specialty bits for sights, scope mounts, grip bushings, Ruger ejectors, and other unique applications, plus the handy Magna-Tip Choke Tube Wrench and a hex-to-square adapter that lets you use your Magna-Tip handles to drive  $\frac{1}{4}$ " drive sockets. The kit's seven driver handles ensure you have the handle best suited to any situation. You get the full-size #81 Handle, #84 Hollow Handle, magnetic Law Enforcement Handle, Law Enforcement Hollow Handle, Compact Law Enforcement Handle, the popular Stubby, and our Magna-Tip Ratchet Handle. The heavy duty, three-way Ratchet Handle provides extra leverage for maximum torque transfer to tighten or loosen stubborn screws. The set is also available with all of the above items, including the Ratchet Handle, plus our Adjustable Torque Handle. The Torque Handle ensures you apply the exact amount of required torque in 1 in-lb. increments from 10 to 70 in-lb. to eliminate guesswork and prevent over-or under-tightening critical screws. Both versions of the set come with a sturdy benchtop storage block to organize and store all the bits and handles. The Professional Super Set is truly the most versatile screwdriver system you'll ever use—and quite possibly the last one you'll ever have to buy!

## Attributes

- Name: [MAGNA-TIP PROFESSIONAL SUPER SET](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080000532
- Mfr. No.:
- Handle: Ratchet
- Handle Color: Blue
- Model Number: Set Only
- Style: Set
- Delivery weight: 2.699kg
- Shipping height: 165mm
- Shipping width: 264mm
- Shipping length: 335mm
- UPC: 050806006324

# Safety Instruction Guide for MAGNATIP® PROFESSIONAL SUPER SET

## Introduction

Thank you for choosing the MAGNATIP® PROFESSIONAL SUPER SET. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this manual thoroughly before using the set to avoid any hazards and to ensure optimal performance.

## General Safety Guidelines

- Always use the MAGNATIP bits and handles as intended. Misuse may lead to injury or damage.
- Keep the tool set out of reach of children and vulnerable individuals to prevent accidents.
- Inspect the bits and handles regularly for any signs of wear or damage before use.
- Do not use damaged or worn bits as they may break during use, posing a risk of injury.
- Store the tool set in a dry, cool place to prevent rust or degradation of materials.
- Follow all local regulations and guidelines regarding the use and disposal of tools.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety goggles, when using the screwdriver set.
- Ensure that the work area is clean and welllit to avoid accidents.
- Use the correct bit size for the screw to prevent slipping and potential injury.
- Apply force gradually when tightening or loosening screws to avoid stripping the screw slots.
- Avoid using excessive force; if resistance is encountered, reassess the situation before proceeding.
- Do not use the tool set for purposes other than intended, such as prying or chiseling.

## Instructions for Installation and Usage

### 1. Selecting the Right Bit:

- Identify the type and size of the screw you are working with.
- Choose the corresponding MagnaTip bit from the set.

### 2. Attaching the Bit:

- Insert the selected bit into the handle securely.
- Ensure the bit is fully seated in the handle to prevent slipping during use.

### 3. Using the Screwdriver:

- Position the bit into the screw slot, ensuring a proper fit.
- Turn the handle clockwise to tighten or counterclockwise to loosen the screw.
- Maintain a steady grip and apply even pressure.

### 4. Using the Ratchet Handle:

- For stubborn screws, utilize the heavyduty Ratchet Handle for additional leverage.
- Adjust the ratchet mechanism as needed to facilitate easier turning.

### 5. Using the Torque Handle:

- If applicable, attach the Adjustable Torque Handle to ensure precise torque application.

- Set the desired torque level according to the specifications of the screw.
- Turn the handle until the torque limit is reached, preventing overtightening.

## **Disposal Instructions**

- Dispose of any damaged or worn bits and handles in accordance with local waste disposal regulations.
- Consider recycling materials where possible, particularly plastic and metal components.
- Do not dispose of the product in regular household waste.

## **Contact Information for Further Support**

For any inquiries regarding safety, usage, or support for the MAGNATIP® PROFESSIONAL SUPER SET, please refer to the manufacturer's contact details provided in the product packaging or visit the official website.

By following these guidelines, you can ensure a safe and effective experience with your MAGNATIP® PROFESSIONAL SUPER SET. Thank you for your attention to safety and for choosing our product.
