

EXTRACTOR ROD TOOL FOR S&W - BROWNELLS LARGE EXTRACTOR ROD TOOL FOR S&W 0.246" DIAMETER

[Gunsmith Tools](#) > [Handgun Tools](#) > [Action & Frame Tools](#) > [Extractor Tools](#)

Specialized Tools For Wheel Guns

Machined aluminum clamp maintains a secure hold of the extractor rod for fast, easy removal without scratching or gouging the metal surface. Steel, Allen head screw tightens to pull the clamping halves together for a non-slip hold. Grasp the tool and unscrew the extractor. Ensures professional-looking results everytime. Available for Smith & Wesson revolvers. Recommended for use with Brownells adjustable extractor support tools.

Safety Instruction Guide for Extractor Rod Tool for S&W

Introduction

Thank you for choosing the Extractor Rod Tool for Smith & Wesson (S&W) revolvers. This tool is designed to provide a safe and efficient method for removing extractor rods from your firearm. To ensure your safety and the proper use of this product, please read and follow the guidelines outlined in this safety instruction manual.

General Safety Guidelines

- Always use the Extractor Rod Tool as intended. Improper use may lead to accidents or damage.
- Keep the tool out of reach of children and other vulnerable individuals.
- Inspect the tool before each use to ensure it is in good working condition.
- If you notice any damage or wear, discontinue use immediately and contact a qualified professional for assistance.
- Report any unsafe products or accidents to the proper authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure the firearm is unloaded before using the Extractor Rod Tool.
- Wear appropriate safety gear, such as safety glasses, to protect your eyes during use.
- Avoid using excessive force when handling the tool to prevent injury or damage.
- Do not use the tool for any purpose other than removing extractor rods.
- Always follow the manufacturer's instructions for your specific firearm model.

Instructions for Installation and Usage

1. Preparation

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary tools and safety equipment.

2. Using the Extractor Rod Tool

- Place the extractor rod securely in the machined aluminum clamp of the tool.
- Tighten the steel Allen head screw to hold the clamping halves together, ensuring a nonslip grip.
- Grasp the tool firmly and gently unscrew the extractor rod from the firearm.
- Be cautious not to scratch or gouge the metal surface of the firearm during this process.

3. PostUse Care

- After use, clean the tool and store it in a safe place.
- Ensure the tool is kept away from moisture and extreme temperatures to maintain its integrity.

Disposal Instructions

- Dispose of the Extractor Rod Tool in accordance with local regulations.
- If the tool is damaged or no longer needed, consider recycling the aluminum and steel components where facilities exist.

Contact Information for Further Support

For any safety inquiries or additional support regarding the Extractor Rod Tool, please refer to the contact details provided with your purchase. It is important to have access to a reliable source for assistance and information.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your Extractor Rod Tool for Smith & Wesson revolvers. Thank you for your attention to these important safety measures.
