

# HIGH TEMPERATURE MASKING TAPE - BROWNELLS 1/2" HIGH TEMP MASKING TAPE

[Gunsmith Tools](#) > [Metal Prep & Coloring](#) > [Paint Finishes](#) > [Painting Accessories](#)

## Use With Oven-Cure Finishes - Withstands 400 F Heat

Strong, yet flexible polyester tape withstands sustained temperatures up to 400° F (204° C), making it the perfect masking medium to use with Brownells Baking Lacquer, Gun-Kote™, Teflon®/Moly Oven Cure Gun Finish, and similar oven-cured finishing products. Minimal-bulk, .002" thick polyester backing conforms easily to curves and irregular shapes, yet won't shred when tape is removed. Translucent, so you can see the workpiece underneath as you apply the tape to help you position it precisely. Advanced silicone adhesive grabs tightly and won't pucker, and pulls off clean with no residue.

## Attributes

- Name: [BROWNELLS 1/2" HIGH TEMP MASKING TAPE](#)
- Manufacturer: [BROWNELLS](#)
- Product no.: 080000612
- Mfr. No.: PC210500
- Delivery weight: 0.091kg
- Shipping height: 18mm
- Shipping width: 142mm
- Shipping length: 130mm
- UPC: 050806006454

# **HIGH TEMPERATURE MASKING TAPE BROWNELLS**

## **Safety Instruction Guide**

### **Introduction**

Thank you for choosing the HIGH TEMPERATURE MASKING TAPE from Brownells. This guide provides essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the tape to ensure optimal safety and performance.

### **General Safety Guidelines**

- Ensure the product is used only for its intended purpose as a masking medium for hightemperature applications.
- Always store the tape in a cool, dry place away from direct sunlight and heat sources.
- Inspect the tape for any visible damage before use. Do not use if the tape is torn or compromised.
- Keep the tape out of reach of children and vulnerable individuals to prevent accidental use.

### **Specific Safety Precautions for Use**

- Use the tape in wellventilated areas to minimize exposure to any fumes during application or removal.
- Avoid prolonged skin contact with the adhesive to prevent irritation.
- When applying the tape, ensure that the surface is clean and dry to achieve the best adhesion.
- If the tape sticks to the workpiece, gently peel it off at a low angle to avoid damaging the surface.
- Do not use the tape near open flames or high heat sources beyond its specified temperature limits (up to 400° F or 204° C).
- Always follow the manufacturer's instructions for any finishing products used in conjunction with the tape.

### **Instructions for Installation and Usage**

#### **1. Preparation:**

- Clean the surface where the tape will be applied to ensure it is free from dust, grease, and moisture.
- Cut the desired length of tape from the roll.

#### **2. Application:**

- Position the tape carefully on the workpiece, ensuring it conforms to curves and irregular shapes.
- Press down firmly along the length of the tape to ensure good adhesion.
- Use a roller or a flat tool to smooth out any bubbles or wrinkles.

#### **3. Removal:**

- After the finishing process is complete, carefully peel the tape off at a low angle to avoid damaging the surface.
- If the tape is difficult to remove, use a heat gun on a low setting to soften the adhesive before peeling.

### **Disposal Instructions**

- Dispose of the tape in accordance with local regulations for waste disposal.
- Do not incinerate the tape, as it may release harmful fumes.

- Recycle the packaging materials where possible.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the HIGH TEMPERATURE MASKING TAPE, please consult the manufacturer or your local distributor.

By following these safety instructions, you can ensure a safe and effective experience with the HIGH TEMPERATURE MASKING TAPE from Brownells. Thank you for your attention to safety and proper usage.
