RIFLE POLISHING SYSTEM BROWNELLS 223 REMINGTON 800 GRIT CHAMBER HONE Safety Instruction Guide

Introduction

Thank you for choosing the RIFLE POLISHING SYSTEM BROWNELLS 223 REMINGTON 800 GRIT CHAMBER HONE. This product is designed to polish rough or scored chambers, ensuring smooth and frictionfree operation. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when using the product.
- Regularly inspect the product for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always use the Flex Hone Oil as specified. Using other oils may lead to ineffective polishing or damage to the product.
- Avoid prolonged exposure to dust generated during the polishing process. Use a dust mask if necessary.
- Ensure the work area is wellventilated to avoid inhalation of any airborne particles.
- Do not use the product on any chamber that shows signs of severe damage or excessive wear.
- Follow the manufacturer's recommendations for the length of time to use the hone to prevent overpolishing.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary materials, including the RIFLE POLISHING SYSTEM, Flex Hone Oil, and personal protective equipment.
- Ensure that the work area is clean and welllit.

2. Installation:

- Attach the chamber hone to a suitable power tool, ensuring a secure fit.
- Check that the power tool is compatible with the length of the shank (8" for .223/5.56 or 14" for .38/.357/.44/.45).

3. Usage:

- Apply a generous amount of Flex Hone Oil to the chamber hone before use.
- Insert the hone into the chamber and activate the power tool at a low speed.
- Move the hone in a circular motion for a few minutes, allowing the abrasive action to polish the chamber.
- Periodically check the chamber for smoothness and apply more oil as needed.
- Once finished, turn off the tool and carefully remove the hone from the chamber.

4. **PostUsage:**

- Clean the chamber thoroughly to remove any debris or residue.
- Inspect the hone for any signs of wear or damage and store it in a safe place.

Disposal Instructions

- Dispose of any used materials, including the hone and Flex Hone Oil, in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check for designated disposal sites for hazardous materials.

Contact Information for Further Support

For any inquiries regarding the safety or use of the RIFLE POLISHING SYSTEM BROWNELLS 223 REMINGTON 800 GRIT CHAMBER HONE, please refer to the manufacturer's contact details provided with the product packaging.

Thank you for your attention to these safety guidelines. Proper use and care will ensure the longevity and effectiveness of your RIFLE POLISHING SYSTEM.
