

# G10 PILLAR BEDDING SLEEVES - BROWNEllS SHORT G10 PILLAR BEDDING SLEEVE

[Gunsmith Tools](#) > [Stock Work & Finishing](#) > [Pillar Bedding](#) > [Pillar Bedding Sleeves](#)

## Stable In Hot & Cold Weather; Easy To Machine

Machined fiberglass bedding sleeves provide a solid fit between bottom metal and action to maximize accuracy from a hunting or target rifle. G10 can't corrode and is highly resistant to dimensional changes from extreme heat or cold conditions, so these sleeves won't shift due to temperature fluctuations. Easy to machine for custom stock work and fitting to Remington or round-bottom actions. Work best when installed using Brownells ACRAGLAS® family of bedding epoxies. Exterior grooves maximize gripping area for epoxy to guarantee that even frequent disassembly won't loosen these sleeves.

## Attributes

# G10 Pillar Bedding Sleeves Safety Instructions

## Introduction

Thank you for choosing the G10 Pillar Bedding Sleeves from Brownells. These fiberglass bedding sleeves are designed to enhance the accuracy of your hunting or target rifle. Please read this safety instruction guide carefully to ensure safe installation and usage.

## General Safety Guidelines

- Always ensure that the product is used according to the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bedding sleeves for signs of wear or damage before use.
- If you notice any defects or irregularities, discontinue use immediately and contact the manufacturer.
- Report any unsafe products or accidents to relevant authorities.

## Specific Safety Precautions for Use

- Do not expose the G10 Pillar Bedding Sleeves to extreme temperatures beyond their specifications.
- Ensure that the bedding sleeves are properly fitted and secured before using your rifle.
- Use appropriate personal protective equipment (PPE) such as gloves and safety glasses when handling and installing the bedding sleeves.
- Avoid using the product if you are unsure about the installation process. Consult a professional if needed.
- Follow all local regulations regarding firearm safety and handling.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools, including a drill, epoxy, and any other required equipment.
- Ensure your workspace is clean and free from distractions.

### 2. Installation:

- Select the appropriate length of the G10 Pillar Bedding Sleeve (Short 1" or Long 1½").
- Use a drill to create a hole in your stock that matches the diameter of the sleeve (0.3" or 7.5mm).
- Insert the bedding sleeve into the drilled hole, ensuring a tight fit.
- Apply Brownells ACRAGLAS® epoxy around the exterior grooves of the sleeve to maximize grip.
- Allow the epoxy to cure according to the manufacturer's instructions before reassembling your rifle.

### 3. Usage:

- After installation, ensure that the bedding sleeves are securely in place before using your rifle.
- Regularly check the integrity of the bedding sleeves during maintenance.

## Disposal Instructions

- Dispose of any unused or damaged G10 Pillar Bedding Sleeves in accordance with local regulations.
- Do not dispose of in household waste. Check for local recycling programs that accept fiberglass materials.

## Contact Information for Further Support

For any questions or concerns regarding the G10 Pillar Bedding Sleeves, please refer to the manufacturer's contact information provided in the product packaging or on the official website.

Thank you for your attention to these safety instructions. Enjoy your enhanced shooting experience with the G10 Pillar Bedding Sleeves!
