RIFLE POLISHING SYSTEM BROWNELLS 22 MAGNUM 400 GRIT CHAMBER HONE Safety Instruction Guide

Introduction

Thank you for choosing the RIFLE POLISHING SYSTEM BROWNELLS 22 MAGNUM 400 GRIT CHAMBER HONE. This product is designed to safely and effectively polish rough or scored chambers in firearms. Please read this safety instruction guide carefully to ensure proper use and to maximize your safety while using this product.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always wear appropriate personal protective equipment (PPE) such as safety goggles and gloves when using the product.
- Keep the product out of reach of children and unauthorized users.
- Do not use the product for any purpose other than its intended use.
- Be aware of your surroundings and ensure that the area is wellventilated during use.
- Regularly inspect the product for any signs of wear or damage before use.
- In case of an accident or injury, seek medical attention immediately.

Specific Safety Precautions for Use

- The abrasive silicon carbide balls can create fine dust. Avoid inhaling dust and ensure proper ventilation.
- Use Flex Hone Oil only as specified. Do not substitute with other oils or lubricants.
- Always follow the recommended shank lengths for your specific firearm calibers:
 - .223/5.56 8" (20cm) long shank
 - .38/.357/.44/.45 14" (35.5cm) long shank
- Do not exceed the recommended speed or duration of use, as this may cause damage to the product or the firearm.
- Ensure that the chamber is clear of any ammunition before beginning the polishing process.
- Do not apply excessive pressure while using the hone, as this can lead to uneven polishing or damage to the chamber.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is unloaded and in a safe condition.
- Gather all necessary materials, including the RIFLE POLISHING SYSTEM, Flex Hone Oil, and PPE.

2. Installation:

- Attach the appropriate long shank to the Flex Hone tool.
- Ensure that the attachment is secure before proceeding.

3. Application:

- Apply a generous amount of Flex Hone Oil to the silicon carbide balls.
- Insert the hone into the chamber and begin polishing at a low speed.
- Gradually increase the speed while maintaining a steady and gentle pressure.
- Continuously monitor the polishing process to avoid overheating or damaging the chamber.

4. Completion:

- After polishing, remove the hone from the chamber and clean any residual oil and debris.
- Inspect the chamber for a smooth finish.

Disposal Instructions

- Dispose of any used Flex Hone Oil and polishing materials in accordance with local regulations.
- Do not dispose of the product in household waste. Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional support regarding the RIFLE POLISHING SYSTEM BROWNELLS 22 MAGNUM 400 GRIT CHAMBER HONE, please consult the manufacturer's contact information provided with the product packaging.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience while using the RIFLE POLISHING SYSTEM BROWNELLS 22 MAGNUM 400 GRIT CHAMBER HONE. Always prioritize safety and adhere to the guidelines outlined in this document. Thank you for your attention to safety and for choosing our product.
