

MAGNA-TIP® PROFESSIONAL SUPER SET - BROWNELLS MAGNA-TIP PROFESSIONAL SUPER SET WITHOUT HANDLES

[Gunsmith Tools](#) > [General Gunsmith Tools](#) > [Screwdrivers & Sets](#) > [Magna-Tip Sets](#)

Brownells is proud to introduce the ultimate Magna-Tip screwdriver set for the professional gunsmith or serious hobbyist. The Professional Super Set contains 120 Magna-Tip bits—the largest selection we’ve ever offered in a Magna-Tip set. Custom grinding bits for a proper fit, or having to put a crucial project on hold while you wait for a specialty screwdriver to arrive are worries of the past, because you’ll always have at your fingertips the correct bit for almost any gun screw. Proper-fitting bits prevent damage to screw slots, so when you’re done the screws are in pristine condition—a sure sign of truly professional gunsmithing work. Made from the same hardened steel used in high-speed industrial impact drivers, these bits are hollow-ground for a no-slip seat in the screw slot, and are precision-balanced to transmit maximum torque smoothly and evenly to the screw. The set includes 75 straight, 4 Phillips, 17 hex (Allen), 11 Torx®, and 13 specialty bits for sights, scope mounts, grip bushings, Ruger ejectors, and other unique applications, plus the handy Magna-Tip Choke Tube Wrench and a hex-to-square adapter that lets you use your Magna-Tip handles to drive ¼" drive sockets. The kit’s seven driver handles ensure you have the handle best suited to any situation. You get the full-size #81 Handle, #84 Hollow Handle, magnetic Law Enforcement Handle, Law Enforcement Hollow Handle, Compact Law Enforcement Handle, the popular Stubby, and our Magna-Tip Ratchet Handle. The heavy duty, three-way Ratchet Handle provides extra leverage for maximum torque transfer to tighten or loosen stubborn screws. The set is also available with all of the above items, including the Ratchet Handle, plus our Adjustable Torque Handle. The Torque Handle ensures you apply the exact amount of required torque in 1 in-lb. increments from 10 to 70 in-lb. to eliminate guesswork and prevent over-or under-tightening critical screws. Both versions of the set come with a sturdy benchtop storage block to organize and store all the bits and handles. The Professional Super Set is truly the most versatile screwdriver system you’ll ever use—and quite possibly the last one you’ll ever have to buy!

Attributes

- Name: [BROWNELLS MAGNA-TIP PROFESSIONAL SUPER SET WITHOUT HANDLES](#)
- Manufacturer: [BROWNELLS](#)

Safety Instruction Guide for MAGNATIP® PROFESSIONAL SUPER SET BROWNELLS

Introduction

Thank you for choosing the MAGNATIP® PROFESSIONAL SUPER SET. This guide provides important safety instructions and guidelines to ensure the safe and effective use of your screwdriver set. Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the screwdriver bits and handles before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Use the product in a welllit area to avoid accidents.
- Always wear safety glasses to protect your eyes from debris.
- Ensure a stable work surface when using the screwdriver set.
- Follow all manufacturer instructions for use and care.

Specific Safety Precautions for Use

- **Avoid OverTightening:** Use the Adjustable Torque Handle to apply the correct torque. Overtightening can damage screws and tools.
- **Proper Bit Selection:** Always select the correct bit for the screw type to prevent slippage and damage.
- **Do Not Modify:** Do not alter or modify the screwdriver bits or handles in any way.
- **Use with Care:** Handle the Ratchet Handle with care to avoid injury when applying torque.
- **Check for Wear:** Regularly check bits for wear and replace them if they show signs of damage or excessive wear.
- **Storage:** Store the screwdriver set in the provided benchtop storage block to prevent loss and damage.

Instructions for Installation and Usage

1. Selecting the Bit:

- Choose the appropriate bit for the screw you are working with.
- Ensure the bit is securely fitted into the handle.

2. Using the Screwdriver:

- Hold the handle firmly and apply even pressure.
- Turn the handle in the correct direction (clockwise for tightening, counterclockwise for loosening).
- For stubborn screws, use the Ratchet Handle to provide additional leverage.

3. Using the Torque Handle:

- Adjust the Torque Handle to the desired setting (10 to 70 inlb).
- Apply torque gradually to avoid overtightening.

4. After Use:

- Clean the bits and handles after use to remove any debris.
- Store the screwdriver set in the benchtop storage block to keep it organized.

Disposal Instructions

- Dispose of the product responsibly in accordance with local regulations.
- Do not dispose of the product in household waste.
- Consider recycling the materials where applicable.

Contact Information for Further Support

For any safety inquiries or additional support, please reach out to your local distributor or refer to the manufacturer's website for more information.

Thank you for following these safety instructions. Your safety and the effective use of the MAGNATIP® PROFESSIONAL SUPER SET are our top priorities.
