

DISASSEMBLY TOOL FOR GLOCK® - BROWNELLS DISASSEMBLY TOOL FOR GLOCK

[Gunsmith Tools](#) > [Handgun Tools](#) > [Takedown Tools](#)

At Last! A Proper Tool for Field Stripping Your Glock

The Brownells Disassembly Tool for Glock® Pistols makes taking apart any Glock pistol a piece of cake! No more struggling with small, cheap punches that are just barely large enough to get the job done (with a few four-letter words uttered by the user along the way). Our Brownells Disassembly Tool for Glock Pistols has a comfortable, easy-to-grasp handle - a real, screwdriver-style handle - that fits even the largest paws! Deep flutes on the shockproof, polymer handle provide a secure, non-slip gripping surface. You maintain better control of the tool, reducing the risk of slipping and damaging your pistol's slide finish or polymer frame. Heavy-duty, 2-3/4" long polymer handle. Hardened steel shaft. Correct 3/32" steel pin punch for field stripping any Glock. The pin in the Brownells Disassembly Tool for Glock Pistols is made from the same hardened steel as our gunsmith pin punches, so it won't wear,peen, or (heaven forbid!) break while you're removing the locking block pin, trigger housing pin, trigger pin, and the magazine floorplate.

Safety Instruction Guide for Brownells Disassembly Tool for Glock®

Introduction

Thank you for choosing the Brownells Disassembly Tool for Glock® Pistols. This tool is designed to facilitate the safe and efficient disassembly of your Glock pistol. Please read this safety instruction guide carefully to ensure safe use and to maximize the tool's effectiveness.

General Safety Guidelines

- Ensure that the disassembly tool is used only for its intended purpose.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Keep the tool out of reach of children and unauthorized users.
- Regularly inspect the tool for any signs of wear or damage before use.
- Do not use the tool if it appears damaged or if the pin is worn.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always ensure that the firearm is unloaded before using the disassembly tool.
- Wear appropriate safety glasses to protect your eyes from potential debris.
- Use the tool on a stable surface to avoid slips and accidents.
- Maintain a firm grip on the tool while in use to prevent slipping.
- Avoid using excessive force when using the tool to prevent damage to the firearm or tool.
- Be cautious of sharp edges or points on the tool and the firearm.

Instructions for Installation and Usage

1. Preparation

- Ensure the Glock pistol is completely unloaded and the magazine is removed.
- Place the pistol on a flat, stable surface.

2. Using the Disassembly Tool

- Hold the Brownells Disassembly Tool by the comfortable handle.
- Align the steel pin punch with the pin you intend to remove (locking block pin, trigger housing pin, or trigger pin).
- Apply gentle pressure and tap the handle of the tool with a hammer or similar object to drive the pin out.
- Once the pin is removed, carefully set it aside to avoid losing it.
- Repeat the process for any additional pins that need to be removed.

3. Reassembly

- To reassemble the Glock pistol, align the components and insert the pins back into their respective holes using the disassembly tool.
- Ensure each pin is fully seated before attempting to operate the firearm.

Disposal Instructions

- Dispose of the Brownells Disassembly Tool in accordance with local regulations.
- Do not dispose of the tool in regular household waste if it is damaged or broken. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the Brownells Disassembly Tool for Glock®, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you can ensure safe and effective use of the Brownells Disassembly Tool for Glock® Pistols. Thank you for prioritizing safety!
