

# BLANK SCREW KIT - BLANK SCREW REFILL #4 HEAD 0.220" O.D. 20 PACK

[Gunsmith Tools & Supplies](#) > [Small Hardware](#) > [Metal Screws](#)

## Gun Screws Unlimited; With Drill Press & Dies You Can Make Most Gun Screws

All that is needed is a die with the right threads to make a vast variety of gun screws simply and immediately! You will also need a file, and either a drill press or a pin vise. You can give them any thread length, any overall length and any head thickness desired. Blanks are made of easy-to-thread, tough, forging steel. If hard wearing surface is desired after threading, screws should be treated in Brownells Surface Hardening Compound (#083-000-033).

# BLANK SCREW KIT SAFETY INSTRUCTION GUIDE

## Introduction

Thank you for choosing the BLANK SCREW KIT. This guide provides essential safety instructions and usage information to ensure the safe and effective use of the product. Please read this guide thoroughly before using the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always handle tools and screws with care to prevent injury.
- Keep the kit out of reach of children and vulnerable individuals.
- Regularly inspect tools and screws for any signs of wear or damage before use.
- Follow all instructions provided in this guide to minimize risks.

## Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety goggles and gloves when handling screws and tools.
- Ensure your workspace is clean and welllit to avoid accidents.
- Be cautious when using a die and ensure it is securely attached to prevent slips.
- Avoid wearing loose clothing or jewelry that may get caught in machinery.
- If using power tools, familiarize yourself with their operation and safety features before use.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools: die, file, drill press or pin vise.
- Ensure you have a clean workspace free from distractions.

### 2. Threading Screws:

- Select the appropriate die for the desired thread size.
- Secure the blank screw in a vise to prevent movement.
- Carefully thread the screw using the die, applying even pressure.

### 3. Customizing Screws:

- You can adjust the thread length and overall length as needed.
- Use a file to smooth any rough edges after threading.

### 4. Hardening Screws (Optional):

- If a hardwearing surface is desired, treat the screws with Brownells Surface Hardening Compound (#083000033) according to the manufacturer's instructions.

### 5. Storage:

- Store the screws in a cool, dry place, away from direct sunlight and moisture.
- Ensure the kit is securely closed when not in use to prevent loss of screws.

## **Disposal Instructions**

- Dispose of any unused or damaged screws in accordance with local regulations.
- Do not dispose of screws in regular household waste if they are considered hazardous.
- For guidance on disposal, contact your local waste management authority.

## **Contact Information for Further Support**

For any inquiries regarding product safety or usage, please refer to the contact details provided on the packaging or product insert.
