

BLANK SCREW KIT - BLANK SCREW REFILL #8 HEAD 0.303" O.D. 20 PACK

[Gunsmith Tools & Supplies](#) > [Small Hardware](#) > [Metal Screws](#)

Gun Screws Unlimited; With Drill Press & Dies You Can Make Most Gun Screws

All that is needed is a die with the right threads to make a vast variety of gun screws simply and immediately! You will also need a file, and either a drill press or a pin vise. You can give them any thread length, any overall length and any head thickness desired. Blanks are made of easy-to-thread, tough, forging steel. If hard wearing surface is desired after threading, screws should be treated in Brownells Surface Hardening Compound (#083-000-033).

Safety Instruction Guide for BLANK SCREW KIT

Introduction

Thank you for choosing the BLANK SCREW KIT. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before use to minimize risks and ensure compliance with EU safety regulations.

General Safety Guidelines

- Ensure that all tools and equipment used with the BLANK SCREW KIT are in good working condition.
- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when handling and using screws and tools.
- Keep the product out of reach of children and vulnerable individuals.
- Follow all local regulations and guidelines regarding the use and disposal of metal products.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Use a die with the correct threads to avoid damaging the screws.
- Ensure that the file used is appropriate for the material and does not pose a risk of injury.
- When using a drill press or pin vise, follow the manufacturer's instructions to avoid accidents.
- Be mindful of sharp edges when handling screws to prevent cuts or injuries.
- If using Brownells Surface Hardening Compound, follow the manufacturer's safety instructions and use in a wellventilated area.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools: die, file, drill press or pin vise.
- Ensure that your workspace is clean and organized.

2. Creating Screws:

- Select the desired blank screw from the kit.
- Use the die to cut threads onto the blank screw, ensuring the die is aligned correctly.
- Use a file to smooth any rough edges after threading.

3. Adjusting Length and Thickness:

- You can customize the thread length, overall length, and head thickness as needed.
- Measure carefully to ensure precision.

4. Safety Measures During Use:

- Always secure the blank screw in a vice or clamp while threading to prevent movement.
- Keep hands and fingers away from moving parts during operation.

5. PostUse Care:

- Inspect finished screws for any defects or sharp edges before use.
- Store screws in a safe place, away from children and pets.

Disposal Instructions

- Dispose of any unused or defective screws in accordance with local waste disposal regulations.
- Do not dispose of screws in regular household waste if they are deemed hazardous or unsafe.
- Consider recycling options for metal products where available.

Contact Information for Further Support

For any questions or concerns regarding the BLANK SCREW KIT, please reach out to your local distributor or manufacturer. Ensure you have the product details ready for efficient assistance.

By following these safety instructions, you can ensure a safe and effective experience with your BLANK SCREW KIT. Thank you for your attention to safety!
