

# BLANK SCREW KIT - BROWNELLS BLANK SCREW REFILL #12 HEAD 0.355" O.D. 20 PACK

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

## Gun Screws Unlimited; With Drill Press & Dies You Can Make Most Gun Screws

All that is needed is a die with the right threads to make a vast variety of gun screws simply and immediately! You will also need a file, and either a drill press or a pin vise. You can give them any thread length, any overall length and any head thickness desired. Blanks are made of easy-to-thread, tough, forging steel. If hard wearing surface is desired after threading, screws should be treated in Brownells Surface Hardening Compound (#083-000-033).

# BLANK SCREW KIT SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the BLANK SCREW KIT by Brownells. This guide provides essential safety instructions and recommendations to ensure the safe use of this product. Please read this manual carefully before using the screws to ensure proper handling and to avoid any potential hazards.

## General Safety Guidelines

- Always handle tools and screws with care to avoid injury.
- Ensure that the workspace is clean and free of any obstructions.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when working with screws and tools.
- Keep screws out of reach of children and pets to prevent accidental ingestion or injury.
- Report any unsafe products or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- When using a die to create threads, ensure it is compatible with the screw size to avoid damage.
- Always check the condition of your tools before use. Do not use if they are damaged or worn.
- Use a drill press or pin vise with caution, following the manufacturer's instructions carefully.
- When threading, ensure the screw is securely held to prevent slipping.
- If using Brownells Surface Hardening Compound, follow the instructions on the product label for safe handling and application.
- Do not exceed recommended thread lengths or head thickness to maintain screw integrity.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools: die, file, drill press or pin vise.
- Ensure the workspace is organized and welllit.
- Select the appropriate blank screw based on your project needs.

### 2. Threading the Screws

- Secure the blank screw in the drill press or pin vise.
- Attach the die to the appropriate tool and align it with the screw.
- Slowly turn the die to create threads, applying even pressure.
- Check the threads periodically to ensure they are being cut correctly.

### 3. Finishing the Screws

- Use a file to smooth any rough edges after threading.
- If a hardwearing surface is desired, apply Brownells Surface Hardening Compound according to the instructions.

### 4. Final Checks

- Inspect the finished screws for any defects or irregularities.
- Ensure all screws are preslotted and ready for use.

## **Disposal Instructions**

- Dispose of any unused or defective screws in accordance with local regulations.
- Do not dispose of screws in regular household waste. Check for local recycling programs that accept metal products.
- Ensure that any packaging materials are disposed of or recycled responsibly.

## **Contact Information for Further Support**

For any safety inquiries or additional support, please reach out to the designated EU contact point for this product. Ensure that you have the product details available for reference.

By following these safety instructions, you can ensure a safe and effective experience with the BLANK SCREW KIT. Thank you for your attention to safety and for choosing Brownells products.
