

FILLISTER HEAD SCREW KIT - BROWNELLS 2-64X7/8" FILLISTER HEAD SCREWS 12 PACK

[Gunsmith Tools](#) > [Small Hardware](#) > [Metal Screws](#)

All Standard Thread Sizes From "0" To "12"

With this kit you can stop searching for those hard-to-find screws that are stocked by only a few specialized manufacturing supply houses . . . we have done the looking for you. You can have that "just right" screw right at your fingertips, in a handy, very complete kit . . . and at quite a substantial savings. The kit contains 12 each of the 20 popular size screws from No. 0 wire gauge to No. 12 wire gauge in long enough lengths to fit many difficult jobs, yet they can be cut off and fitted where a shorter length is required. Slotted head drive type. We strongly suggest that after the screws are cut and trimmed, they be dipped in OXPHO-BLUE to give them a blue color as well as prevent rusting which could otherwise ruin a fine job.

Safety Instruction Guide for Fillister Head Screw Kit BROWNELLS 264X7/8"

Introduction

Thank you for choosing the Fillister Head Screw Kit from BROWNELLS. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Always handle screws with care to avoid injury.
- Keep screws out of reach of children and pets.
- Inspect screws before use to ensure they are not damaged or defective.
- Store the screw kit in a dry place to prevent rust and corrosion.
- Follow all local regulations regarding the disposal of metal products.

Specific Safety Precautions for Use

- Wear safety goggles when cutting or trimming screws to protect your eyes from metal shavings.
- Use appropriate tools when handling screws to avoid injury.
- Do not use screws for applications they are not designed for, as this may lead to failure and potential harm.
- Ensure that screws are securely fastened to prevent loosening during use.
- If using screws in a highstress application, regularly check for signs of wear or damage.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a screwdriver and cutting tool.
- Choose the appropriate screw size for your application from the kit.

2. Cutting to Length:

- Measure the required length of the screw.
- Use a cutting tool to trim the screw to the desired length.
- After cutting, smooth any sharp edges to prevent injury.

3. Dipping in OXPHOBLUE (Optional):

- For enhanced protection against rust, dip the trimmed screws in OXPHOBLUE.
- Allow screws to dry completely before use.

4. Installation:

- Align the screw with the predrilled hole in the material.
- Use a screwdriver to drive the screw into place, ensuring it is secure but not overtightened.

5. PostInstallation Check:

- After installation, check that all screws are firmly in place.
- If any screws are found to be loose, retighten them as necessary.

Disposal Instructions

- Dispose of any unused or damaged screws in accordance with local waste disposal regulations.
- Do not dispose of screws in regular household waste. Instead, check for recycling options in your area.
