## Choose From Our Selection of Handles

BROWNELLS MAGNA-TIP® & SUPER SET SCREWDRIVER HANDLES The Brownells Magna-Tip® & Super Set Screwdriver Handles are expertly designed to provide gunsmiths and firearm enthusiasts with versatile and durable options for various firearm maintenance tasks. Each handle is constructed from tough, nearly unbreakable plastic, ensuring longevity and reliability in demanding environments. The steel, hex shank accepts a small wrench for added leverage, enhancing torque application when needed. Key Features: #81 Handle: A rugged, hand-filling design equipped with a powerful magnet for fast bit changes. The magnetism transfers through the bit to hold the screw securely, facilitating efficient and precise work. Dimensions: 1¼" (3.2 cm) diameter, 8" (20.3 cm) overall length. #84 Hollow Handle: Features a magnetic shank with a hollow compartment that accepts up to four bits, allowing Customers to create a custom screwdriver kit for specific firearms. A screw-on cap keeps the bits securely in place. Dimensions: 1¼" (3.2 cm) diameter, 8" (20.3 cm) overall length. Law Enforcement Handle: Developed at the request of police armorers, this handle is approximately 20% shorter and has a smaller diameter than the #81 Handle, bringing the user's hand closer to the work for enhanced control. Available in both magnetic and Clip-Tip styles for secure bit retention. Dimensions: 1" (2.5 cm) diameter, 3¾" (9.5 cm) handle length, 5½" (14 cm) overall length. Stubby Handle: A compact version of the full-size #81 Magnetic Handle, ideal for working in tight spaces. Despite its shorter length, it maintains super-strong construction for durability. Dimensions: 1" (2.5 cm) diameter handle, 2½" (6.3 cm) overall length. Law Enforcement Hollow Handle: Combines the short shank of the Law Enforcement Handle with the convenient storage compartment and full-size grip of the #84 Hollow Handle, allowing Customers to assemble a gun-specific, portable screwdriver kit suitable for both shop and field use. The magnetic socket allows for fast bit changes. Customer Insights: Our customers appreciate the Brownells Magna-Tip® & Super Set Screwdriver Handles for their robust construction and thoughtful design. The variety of handle options allows Customers to select the most appropriate tool for specific tasks, enhancing precision and control during firearm maintenance. The magnetic features and bit storage capabilities are particularly valued for their convenience and efficiency in both shop and field settings. Incorporating the Brownells Magna-Tip® & Super Set Screwdriver Handles into your toolkit ensures you have the right handle for any gunsmithing task, providing versatility, durability, and enhanced control for precise firearm maintenance.

# Safety Instruction Guide for MAGNATIP® & SUPER SET SCREWDRIVER HANDLES

## Introduction

Thank you for choosing the Brownells MAGNATIP® & SUPER SET SCREWDRIVER HANDLES. These tools are designed for gunsmiths and firearm enthusiasts, providing a robust and versatile solution for firearm maintenance tasks. To ensure safe and effective use of these screwdriver handles, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- Always use the screwdriver handles as intended for firearm maintenance.
- Keep the screwdriver handles out of reach of children and vulnerable individuals.
- Inspect the handles regularly for any signs of wear or damage before use.
- Store the screwdriver handles in a dry, safe place to prevent damage.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Magnetic Features:** The handles are equipped with magnetic shanks. Avoid placing near electronic devices or sensitive equipment.
- **Bit Changes:** Always ensure the bit is securely attached before use to prevent accidents.
- **Torque Application:** Use appropriate force when applying torque to avoid stripping screws or damaging the tool.
- **Hollow Handle Storage:** When using the #84 Hollow Handle, ensure the screwon cap is secure to prevent bits from falling out during use.
- **Compact Handles:** The stubby and law enforcement handles are designed for tight spaces. Use caution to prevent injury in confined areas.

## Instructions for Installation and Usage

- **Choosing the Right Handle:**
  - Select the appropriate handle based on the task and available space.
  - For tasks requiring more control, consider the Law Enforcement Handle.
- **Using the Magnetic Handle:**
  - Insert the desired bit into the magnetic shank.
  - Ensure the bit is firmly held before starting work.
- **Using the Hollow Handle:**
  - Open the screwon cap to access the storage compartment.
  - Insert up to four bits into the compartment, securing the cap after use.
- **Using the Stubby Handle:**
  - Utilize this handle for tight spaces where fullsize handles may not fit.
  - Ensure the bit is securely attached before applying torque.
- **General Usage Tips:**

- Always maintain a firm grip on the handle while working.
- Avoid using excessive force; if resistance is met, reassess the situation.

## **Disposal Instructions**

- Dispose of the screwdriver handles in accordance with local waste management regulations.
- If the handles are damaged or no longer usable, consider recycling options if available.
- Do not dispose of the handles in household waste if they contain hazardous materials.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the MAGNATIP® & SUPER SET SCREWDRIVER HANDLES, please refer to the contact information provided with your product packaging or on the manufacturer's website.

Thank you for your attention to these safety instructions. Your careful use of the MAGNATIP® & SUPER SET SCREWDRIVER HANDLES will help ensure a safe and effective maintenance experience.
