Choose From Our Selection of Handles

BROWNELLS MAGNA-TIP® & SUPER SET SCREWDRIVER HANDLES The Brownells Magna-Tip® & Super Set Screwdriver Handles are expertly designed to provide gunsmiths and firearm enthusiasts with versatile and durable options for various firearm maintenance tasks. Each handle is constructed from tough, nearly unbreakable plastic, ensuring longevity and reliability in demanding environments. The steel, hex shank accepts a small wrench for added leverage, enhancing torque application when needed. Key Features: #81 Handle: A rugged, hand-filling design equipped with a powerful magnet for fast bit changes. The magnetism transfers through the bit to hold the screw securely, facilitating efficient and precise work. Dimensions: 1 $\frac{1}{4}$ " (3.2 cm) diameter, 8" (20.3 cm) overall length. #84 Hollow Handle: Features a magnetic shank with a hollow compartment that accepts up to four bits, allowing Customers to create a custom screwdriver kit for specific firearms. A screw-on cap keeps the bits securely in place. Dimensions: 1 $\frac{1}{4}$ " (3.2 cm) diameter, 8" (20.3 cm) overall length. Law Enforcement Handle: Developed at the request of police armorers, this handle is approximately 20% shorter and has a smaller diameter than the #81 Handle, bringing the user's hand closer to the work for enhanced control. Available in both magnetic and Clip-Tip styles for secure bit retention. Dimensions: 1" (2.5 cm) diameter, 3 $\frac{3}{4}$ " (9.5 cm) handle length, 5 $\frac{1}{2}$ " (14 cm) overall length. Stubby Handle: A compact version of the full-size #81 Magnetic Handle, ideal for working in tight spaces. Despite its shorter length, it maintains super-strong construction for durability. Dimensions: 1" (2.5 cm) diameter handle, 2 $\frac{1}{2}$ " (6.3 cm) overall length. Law Enforcement Hollow Handle: Combines the short shank of the Law Enforcement Handle with the convenient storage compartment and full-size grip of the #84 Hollow Handle, allowing Customers to assemble a gun-specific, portable screwdriver kit suitable for both shop and field use. The magnetic socket allows for fast bit changes. Customer Insights: Our customers appreciate the Brownells Magna-Tip® & Super Set Screwdriver Handles for their robust construction and thoughtful design. The variety of handle options allows Customers to select the most appropriate tool for specific tasks, enhancing precision and control during firearm maintenance. The magnetic features and bit storage capabilities are particularly valued for their convenience and efficiency in both shop and field settings. Incorporating the Brownells Magna-Tip® & Super Set Screwdriver Handles into your toolkit ensures you have the right handle for any gunsmithing task, providing versatility, durability, and enhanced control for precise firearm maintenance.

Safety Instruction Guide for MAGNATIP® & SUPER SET SCREWDRIVER HANDLES

Introduction

Thank you for choosing the Brownells MagnaTip® & Super Set Screwdriver Handles. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the screwdriver handles to prevent accidents and ensure optimal performance.

General Safety Guidelines

- Always use the screwdriver handles for their intended purpose only.
- Keep the screwdriver handles out of reach of children and vulnerable individuals.
- Inspect the handles before each use for any signs of damage or wear.
- Use appropriate personal protective equipment (PPE) such as safety glasses when working on firearms.
- Store the screwdriver handles in a dry place when not in use to prevent deterioration.
- Do not use excessive force when tightening screws to avoid damaging the tool or the firearm.

Specific Safety Precautions for Use

- Ensure that the bit is securely attached to the handle before use to prevent slippage.
- Avoid using the screwdriver handles in wet or damp conditions to reduce the risk of electrical shock or tool damage.
- Do not use the handles for prying or as a lever, as this can cause breakage.
- Be cautious when using the magnetic features; keep away from sensitive electronic devices and magnetic storage media.
- When changing bits, ensure that the magnetic shank is free of debris to maintain proper grip.

Instructions for Installation and Usage

• Selecting the Right Handle:

- Choose the appropriate handle based on your specific task:
- #81 Handle for general use with a powerful magnet.
- #84 Hollow Handle for carrying multiple bits.
- Law Enforcement Handle for enhanced control in tight spaces.
- Stubby Handle for use in confined areas.
- Law Enforcement Hollow Handle for a portable kit.

• Attaching Bits:

- Align the bit with the magnetic shank of the handle.
- Push the bit firmly into place until it is securely held by the magnet.

• Using the Screwdriver:

- Hold the handle firmly and apply steady pressure while turning the screwdriver to avoid slipping.
- If resistance is encountered, do not force the handle; instead, check for misalignment or obstructions.

• Storing the Screwdriver:

- After use, remove the bit and store it in the hollow compartment (if applicable) or in a secure

location.

- Ensure that the screwon cap is tightly fastened to prevent bits from falling out.

Disposal Instructions

- Dispose of the screwdriver handles responsibly in accordance with local regulations.
- If the handles are damaged beyond repair, consider recycling materials where possible.
- Do not dispose of the product in regular household waste.

Contact Information for Further Support

For any safety inquiries, concerns, or product support, please refer to the contact details provided by the retailer where you purchased this product.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells MagnaTip® & Super Set Screwdriver Handles. Thank you for prioritizing safety in your firearm maintenance activities.
