Choose From Our Selection of Handles

BROWNELLS MAGNA-TIP® & SUPER SET SCREWDRIVER HANDLES The Brownells Magna-Tip® & Super Set Screwdriver Handles are expertly designed to provide gunsmiths and firearm enthusiasts with versatile and durable options for various firearm maintenance tasks. Each handle is constructed from tough, nearly unbreakable plastic, ensuring longevity and reliability in demanding environments. The steel, hex shank accepts a small wrench for added leverage, enhancing torque application when needed. Key Features: #81 Handle: A rugged, hand-filling design equipped with a powerful magnet for fast bit changes. The magnetism transfers through the bit to hold the screw securely, facilitating efficient and precise work. Dimensions: 1¼" (3.2 cm) diameter, 8" (20.3 cm) overall length. #84 Hollow Handle: Features a magnetic shank with a hollow compartment that accepts up to four bits, allowing Customers to create a custom screwdriver kit for specific firearms. A screw-on cap keeps the bits securely in place. Dimensions: 1¼" (3.2 cm) diameter, 8" (20.3 cm) overall length. Law Enforcement Handle: Developed at the request of police armorers, this handle is approximately 20% shorter and has a smaller diameter than the #81 Handle, bringing the user's hand closer to the work for enhanced control. Available in both magnetic and Clip-Tip styles for secure bit retention. Dimensions: 1" (2.5 cm) diameter, 3¾" (9.5 cm) handle length, 5½" (14 cm) overall length. Stubby Handle: A compact version of the full-size #81 Magnetic Handle, ideal for working in tight spaces. Despite its shorter length, it maintains super-strong construction for durability. Dimensions: 1" (2.5 cm) diameter handle, 2½" (6.3 cm) overall length. Law Enforcement Hollow Handle: Combines the short shank of the Law Enforcement Handle with the convenient storage compartment and full-size grip of the #84 Hollow Handle, allowing Customers to assemble a gun-specific, portable screwdriver kit suitable for both shop and field use. The magnetic socket allows for fast bit changes. Customer Insights: Our customers appreciate the Brownells Magna-Tip® & Super Set Screwdriver Handles for their robust construction and thoughtful design. The variety of handle options allows Customers to select the most appropriate tool for specific tasks, enhancing precision and control during firearm maintenance. The magnetic features and bit storage capabilities are particularly valued for their convenience and efficiency in both shop and field settings. Incorporating the Brownells Magna-Tip® & Super Set Screwdriver Handles into your toolkit ensures you have the right handle for any gunsmithing task, providing versatility, durability, and enhanced control for precise firearm maintenance.

MAGNATIP® & SUPER SET SCREWDRIVER HANDLES SAFETY INSTRUCTION GUIDE

Introduction

Thank you for choosing the MAGNATIP® & SUPER SET SCREWDRIVER HANDLES by BROWNELLS. This guide provides essential safety instructions to ensure the safe and effective use of your screwdriver handles. Please read this guide carefully and keep it for future reference.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the screwdriver handles for damage before use. Do not use if damaged.
- Keep the screwdriver handles out of reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE), such as safety glasses, when using tools.
- Follow all safety instructions provided in this guide to minimize risks.

Specific Safety Precautions for Use

- **Handle with Care:** Always hold the screwdriver handle firmly and ensure your hands are dry to prevent slipping.
- **Use Correct Bits:** Ensure that the correct bit is used for the screw type. Using the wrong bit can lead to damage or injury.
- **Avoid Excessive Force:** Do not apply excessive force when using the screwdriver. If resistance is met, stop and reassess the situation.
- **Magnetic Caution:** The magnetic features can attract metal objects. Keep away from sensitive electronic devices.
- **Storage:** Store the screwdriver handles in a dry place, away from direct sunlight and extreme temperatures.

Instructions for Installation and Usage

1. Selecting the Bit:

- Choose the appropriate bit from the provided options (#4451 to #4454).
- Ensure the bit is securely attached to the magnetic shank.

2. Using the Screwdriver:

- Align the bit with the screw head.
- Turn the screwdriver handle clockwise to tighten and counterclockwise to loosen screws.
- For the Law Enforcement Handle, ensure that the longer handle is used for better leverage.

3. Changing Bits:

- To change bits, simply pull the current bit out of the magnetic shank.
- Insert the new bit firmly until it is securely held by the magnet.

4. Storing the Screwdriver:

- When not in use, store the screwdriver in a safe location.
- Ensure that any bits are secured in the hollow handle or stored separately to prevent loss.

Disposal Instructions

- Dispose of the screwdriver handles in accordance with local waste management regulations.
- If the handles are damaged beyond use, consider recycling the plastic and metal components where facilities exist.
- Do not dispose of in general waste if local regulations require special handling.

Contact Information for Further Support

For any inquiries regarding safety or product performance, please refer to the contact details provided on the packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with your MAGNATIP® & SUPER SET SCREWDRIVER HANDLES. Always prioritize safety and report any unsafe conditions or incidents to the appropriate authorities. Thank you for choosing BROWNELLS products.
