RECEIVER FACING MANDREL "SP" FACING MANDREL Safety Instruction Guide

Introduction

Thank you for choosing the RECEIVER FACING MANDREL "SP" FACING MANDREL. This precision tool is designed to ensure the correct centering of the receiver for lathe turning, allowing for accurate recontouring of external surfaces. This guide provides essential safety instructions to ensure safe and effective use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand the safety instructions before using the product.
- Ensure that the work area is clean, welllit, and free of distractions.
- Use the product only for its intended purpose as described in this manual.
- Wear appropriate personal protective equipment (PPE), including safety goggles and gloves, to protect against debris and sharp edges.
- Keep the tool out of reach of children and vulnerable individuals.
- Regularly inspect the tool for any signs of wear or damage before use.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure the lathe and toolpost grinder are properly set up and calibrated before use.
- Do not exceed the manufacturer's recommended specifications for the lathe and facing mandrel.
- Avoid wearing loose clothing or jewelry that could become entangled in the machinery.
- Always use the tool in a stable position to prevent slipping or movement during operation.
- Do not attempt to modify or repair the tool without proper training and authorization.
- In case of an emergency, know the location of the emergency shutoff switch for the lathe and grinder.

Instructions for Installation and Usage

1. Installation

- Before installation, ensure that the lathe is powered off and unplugged.
- Secure the RECEIVER FACING MANDREL "SP" in the lathe's chuck, ensuring it is firmly held in place.
- Check that the receiver is properly centered on the mandrel to ensure accurate machining.

2. Usage

- Once installed, power on the lathe and adjust the speed according to the material being machined.
- Use the toolpost grinder as needed for recontouring, ensuring that all safety precautions are followed.
- Monitor the machining process closely, and stop the lathe immediately if any unusual sounds or movements occur.
- After completing the work, power off the lathe and carefully remove the mandrel.

Disposal Instructions

- Dispose of the RECEIVER FACING MANDREL "SP" in accordance with local regulations for metal waste.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer usable, contact local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries or concerns regarding the RECEIVER FACING MANDREL "SP," please refer to the contact information provided by the manufacturer or retailer. It is important to have an EUbased contact for any safety inquiries or product recalls.

Thank you for prioritizing safety while using the RECEIVER FACING MANDREL "SP." Your adherence to these guidelines helps ensure a safe and efficient working environment.
