## State-Of-The-Art Screwdriver Sets & Bits For The Gun Shop or Workshop

**BROWNELLS STANDARD MAGNA-TIP SETS** The Brownells Standard Magna-Tip® Sets are meticulously designed to meet the diverse needs of gunsmiths and firearm enthusiasts, offering a comprehensive selection of interchangeable bits and handles for precise firearm maintenance and assembly. Key Features: Comprehensive Bit Selection: Each set includes eleven bits for slotted screws, #1, #2, and #3 Phillips bits, plus ten hex bits for socket head screws, ensuring versatility across various firearm applications. True Hollow-Ground Bits: The Magna-Tip® bits feature true hollow-ground tips that transmit torque evenly and smoothly up the shank, providing complete metal-to-metal contact with the screw slot. This design allows maximum power to be exerted without damaging the screw. Durable Construction: Manufactured from high-quality materials, these bits are built to withstand rigorous use, ensuring long-lasting performance. Ergonomic Handle Design: The handle is made from shockproof plastic with grooved flutes for a positive grip, allowing for comfortable and controlled use during firearm maintenance tasks. Shockproof plastic with grooved flutes Specifications: #1 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. Includes the box and tray for organized storage and easy access. #2 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. #3 Standard Kit Includes the Magna-Tip handle of your choice. 11 slotted bits. Included the box and tray for organized storage and easy access. Customer Insights: Our customers appreciate the Brownells Standard Magna-Tip® Sets for their versatility and precision. The comprehensive selection of bits allows Customers to tackle a wide range of firearm maintenance tasks with confidence. The true hollow-ground design ensures a secure fit in screw slots, minimizing the risk of damage during use. The durable construction and ergonomic handle design contribute to a comfortable and reliable user experience, making these sets a valuable addition to any gunsmith's toolkit. Incorporating the Brownells Standard Magna-Tip® Set into your firearm maintenance routine ensures you have the right tools to perform tasks with precision and confidence. Their specialized design and robust construction make them essential for achieving professional results in gunsmithing.

# Safety Instruction Guide for Brownells Standard MagnaTip® Sets

## Introduction

Thank you for choosing the Brownells Standard MagnaTip® Sets. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your product. Please read this information carefully before using the tool to maximize your safety and performance.

## General Safety Guidelines

- Always use the Brownells Standard MagnaTip® Sets as intended and according to the instructions provided.
- Keep the tool and its components out of reach of children and unauthorized users.
- Inspect the bits and handle for any signs of damage or wear before each use. Do not use damaged components.
- Ensure that your workspace is clean, dry, and welllit to prevent accidents.
- Wear appropriate personal protective equipment (PPE), such as safety glasses, to protect against flying debris.
- Avoid distractions while using the tool to maintain focus and safety.
- Store the tool in a secure location when not in use to prevent unauthorized access.

## Specific Safety Precautions for Use

- When changing bits, ensure that the handle is turned off and disconnected from any power source, if applicable.
- Use the correct bit size for the screw or fastener to avoid stripping or damaging the screw.
- Apply torque gradually and evenly to avoid sudden movements that could lead to injury.
- Do not exceed the recommended torque specifications for the bits to prevent breakage or injury.
- Avoid using the tool in wet or damp conditions to reduce the risk of electric shock or rusting.
- If you experience discomfort or pain while using the tool, stop immediately and consult a professional.

## Instructions for Installation and Usage

### 1. Selecting the Bit:

- Choose the appropriate bit for your task from the provided selection.
- Ensure the bit is clean and free from debris before use.

### 2. Attaching the Bit:

- Insert the selected bit into the MagnaTip handle securely.
- Confirm that the bit is locked in place before proceeding.

### 3. Using the Tool:

- Position the bit in the screw slot and apply gentle pressure.
- Turn the handle clockwise to tighten or counterclockwise to loosen the screw.
- Maintain a steady grip on the handle throughout the process.

### 4. After Use:

- Once your task is complete, remove the bit from the handle.

- Clean the bits and handle to remove any debris or residue.
- Store the tool properly in its designated box or tray for organized storage.

## **Disposal Instructions**

- Dispose of any damaged bits or handles in accordance with local regulations for hazardous waste.
- Recycle materials where applicable to minimize environmental impact.
- Do not dispose of the product in regular household waste.

## **Contact Information for Further Support**

For any safety inquiries or additional support regarding the Brownells Standard MagnaTip® Sets, please refer to the appropriate contact point provided by the manufacturer or retailer.

By following these safety instructions, you can ensure a safe and effective experience with the Brownells Standard MagnaTip® Sets. Thank you for your attention to these important guidelines.
