State-Of-The-Art Screwdriver Sets & Bits For The Gun Shop or Workshop

BROWNELLS STANDARD MAGNA-TIP SETS The Brownells Standard Magna-Tip® Sets are meticulously designed to meet the diverse needs of gunsmiths and firearm enthusiasts, offering a comprehensive selection of interchangeable bits and handles for precise firearm maintenance and assembly. **Key Features:** **Comprehensive Bit Selection:** Each set includes eleven bits for slotted screws, #1, #2, and #3 Phillips bits, plus ten hex bits for socket head screws, ensuring versatility across various firearm applications. **True Hollow-Ground Bits:** The Magna-Tip® bits feature true hollow-ground tips that transmit torque evenly and smoothly up the shank, providing complete metal-to-metal contact with the screw slot. This design allows maximum power to be exerted without damaging the screw. **Durable Construction:** Manufactured from high-quality materials, these bits are built to withstand rigorous use, ensuring long-lasting performance. **Ergonomic Handle Design:** The handle is made from shockproof plastic with grooved flutes for a positive grip, allowing for comfortable and controlled use during firearm maintenance tasks. **Shockproof plastic with grooved flutes** **Specifications:** **#1 Standard Kit** Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. Includes the box and tray for organized storage and easy access. **#2 Standard Kit** Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. **#3 Standard Kit** Includes the Magna-Tip handle of your choice. 11 slotted bits. Includes the box and tray for organized storage and easy access. **Customer Insights:** Our customers appreciate the Brownells Standard Magna-Tip® Sets for their versatility and precision. The comprehensive selection of bits allows Customers to tackle a wide range of firearm maintenance tasks with confidence. The true hollow-ground design ensures a secure fit in screw slots, minimizing the risk of damage during use. The durable construction and ergonomic handle design contribute to a comfortable and reliable user experience, making these sets a valuable addition to any gunsmith's toolkit. Incorporating the Brownells Standard Magna-Tip® Set into your firearm maintenance routine ensures you have the right tools to perform tasks with precision and confidence. Their specialized design and robust construction make them essential for achieving professional results in gunsmithing.

Brownells Standard MagnaTip® Sets Safety Instructions

Introduction

Thank you for choosing the Brownells Standard MagnaTip® Sets. These tools are designed for firearm maintenance and assembly, providing a comprehensive selection of interchangeable bits and handles. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Always use the MagnaTip® Sets as intended and in accordance with these instructions.
- Keep tools out of reach of children and vulnerable individuals.
- Regularly inspect the bits and handles for any signs of wear or damage before use.
- Ensure that the work area is clean, welllit, and free from distractions.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when performing maintenance tasks.
- Do not use the bits for purposes other than those specified in the product description.

Specific Safety Precautions for Use

- **Bit Selection:** Always select the correct bit for the screw type to avoid stripping or damaging the screw.
- **Torque Application:** Apply torque evenly and smoothly. Avoid excessive force, which can lead to tool or screw damage.
- **Handle Grip:** Ensure a secure grip on the handle to maintain control during use.
- **Storage:** Store the bits and handles in the provided box and tray to prevent loss and damage.
- **Cleaning:** Clean the bits after use to remove any debris or residue that may affect performance.

Instructions for Installation and Usage

1. Selecting the Bit:

- Choose the appropriate bit from the set based on the screw type.
- Ensure the bit is securely inserted into the MagnaTip handle.

2. Using the Tool:

- Position the bit over the screw head and apply gentle downward pressure.
- Rotate the handle clockwise to tighten or counterclockwise to loosen the screw.
- Maintain a steady hand and avoid sudden movements.

3. After Use:

- Remove the bit from the handle and clean it with a soft cloth.
- Store the bits and handle in the designated storage box to keep them organized and protected.

Disposal Instructions

- Dispose of any damaged or worn bits and handles in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of tools in household waste. Check for local recycling programs for tools.

Contact Information for Further Support

For any safety inquiries or concerns regarding the Brownells Standard MagnaTip® Sets, please reach out to the designated EU contact point for assistance.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells Standard MagnaTip® Sets. Thank you for prioritizing safety while maintaining your firearms.
