## State-Of-The-Art Screwdriver Sets & Bits For The Gun Shop or Workshop

BROWNELLS STANDARD MAGNA-TIP SETS The Brownells Standard Magna-Tip® Sets are meticulously designed to meet the diverse needs of gunsmiths and firearm enthusiasts, offering a comprehensive selection of interchangeable bits and handles for precise firearm maintenance and assembly. Key Features: Comprehensive Bit Selection: Each set includes eleven bits for slotted screws, #1, #2, and #3 Phillips bits, plus ten hex bits for socket head screws, ensuring versatility across various firearm applications. True Hollow-Ground Bits: The Magna-Tip® bits feature true hollow-ground tips that transmit torque evenly and smoothly up the shank, providing complete metal-to-metal contact with the screw slot. This design allows maximum power to be exerted without damaging the screw. Durable Construction: Manufactured from high-quality materials, these bits are built to withstand rigorous use, ensuring long-lasting performance. Ergonomic Handle Design: The handle is made from shockproof plastic with grooved flutes for a positive grip, allowing for comfortable and controlled use during firearm maintenance tasks. Shockproof plastic with grooved flutes Specifications: #1 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. Includes the box and tray for organized storage and easy access. #2 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. #3 Standard Kit Includes the Magna-Tip handle of your choice. 11 slotted bits. Included the box and tray for organized storage and easy access. Customer Insights: Our customers appreciate the Brownells Standard Magna-Tip® Sets for their versatility and precision. The comprehensive selection of bits allows Customers to tackle a wide range of firearm maintenance tasks with confidence. The true hollow-ground design ensures a secure fit in screw slots, minimizing the risk of damage during use. The durable construction and ergonomic handle design contribute to a comfortable and reliable user experience, making these sets a valuable addition to any gunsmith's toolkit. Incorporating the Brownells Standard Magna-Tip® Set into your firearm maintenance routine ensures you have the right tools to perform tasks with precision and confidence. Their specialized design and robust construction make them essential for achieving professional results in gunsmithing.

# Safety Instruction Guide for Brownells Standard MagnaTip® Sets

## Introduction

Thank you for choosing the Brownells Standard MagnaTip® Sets. These tools are designed for precision and versatility in firearm maintenance. To ensure safe and effective use of your MagnaTip® Sets, please read this safety instruction guide carefully. It provides essential information on safety guidelines, precautions for use, installation instructions, and disposal methods.

## General Safety Guidelines

- Ensure that all tools are used in accordance with the manufacturer's instructions.
- Always inspect the tools before use. Do not use damaged tools.
- Keep tools out of reach of children and vulnerable individuals.
- Use the tools in a welllit and dry environment to avoid accidents.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the tools.
- Be aware of your surroundings and ensure that no one is in close proximity when using the tools.
- Follow local regulations and guidelines regarding the maintenance and handling of firearms.

## Specific Safety Precautions for Use

- **Bit Selection:** Always select the correct bit for the screw type you are working with to avoid stripping or damaging the screw.
- **Torque Application:** Apply torque evenly and smoothly to prevent slipping. Avoid excessive force that could damage the tool or screw.
- **Handle Grip:** Ensure that the handle is gripped firmly to maintain control during use. The ergonomic design aids in achieving a secure grip.
- **Storage:** Store the bits and handle in the provided box and tray to prevent loss and damage. Ensure that the storage area is dry and free of moisture.
- **Cleaning:** Clean the bits and handle after use to maintain their performance and longevity. Use a soft cloth and avoid abrasive materials.

## Instructions for Installation and Usage

### 1. Selecting the Bit:

- Choose the appropriate bit from the set based on the screw type.
- Ensure that the bit is compatible with the MagnaTip handle.

### 2. Attaching the Bit:

- Insert the chosen bit into the MagnaTip handle securely.
- Ensure that the bit is fully seated in the handle to prevent slippage during use.

### 3. Using the Tool:

- Position the bit into the screw slot.
- Apply torque slowly and steadily. Avoid sudden movements that may cause injury or damage.

### 4. Removing the Bit:

- After completing the task, carefully remove the bit from the handle.
- Store the bit in the designated storage area.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for electronic waste and tools.
- Do not dispose of the product in regular household waste.
- If the product is damaged or no longer usable, consider recycling the materials where possible.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the Brownells Standard MagnaTip® Sets, please contact the manufacturer directly through their EUbased contact point.

By following these safety instructions, you can ensure a safe and effective experience with your Brownells Standard MagnaTip® Sets. Thank you for your attention to these important guidelines.
