## State-Of-The-Art Screwdriver Sets & Bits For The Gun Shop or Workshop

**BROWNELLS STANDARD MAGNA-TIP SETS** The Brownells Standard Magna-Tip® Sets are meticulously designed to meet the diverse needs of gunsmiths and firearm enthusiasts, offering a comprehensive selection of interchangeable bits and handles for precise firearm maintenance and assembly. **Key Features:** **Comprehensive Bit Selection:** Each set includes eleven bits for slotted screws, #1, #2, and #3 Phillips bits, plus ten hex bits for socket head screws, ensuring versatility across various firearm applications. **True Hollow-Ground Bits:** The Magna-Tip® bits feature true hollow-ground tips that transmit torque evenly and smoothly up the shank, providing complete metal-to-metal contact with the screw slot. This design allows maximum power to be exerted without damaging the screw. **Durable Construction:** Manufactured from high-quality materials, these bits are built to withstand rigorous use, ensuring long-lasting performance. **Ergonomic Handle Design:** The handle is made from shockproof plastic with grooved flutes for a positive grip, allowing for comfortable and controlled use during firearm maintenance tasks. **Shockproof plastic with grooved flutes** **Specifications:** #1 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. Includes the box and tray for organized storage and easy access. #2 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. #3 Standard Kit Includes the Magna-Tip handle of your choice. 11 slotted bits. Included the box and tray for organized storage and easy access. **Customer Insights:** Our customers appreciate the Brownells Standard Magna-Tip® Sets for their versatility and precision. The comprehensive selection of bits allows Customers to tackle a wide range of firearm maintenance tasks with confidence. The true hollow-ground design ensures a secure fit in screw slots, minimizing the risk of damage during use. The durable construction and ergonomic handle design contribute to a comfortable and reliable user experience, making these sets a valuable addition to any gunsmith's toolkit. Incorporating the Brownells Standard Magna-Tip® Set into your firearm maintenance routine ensures you have the right tools to perform tasks with precision and confidence. Their specialized design and robust construction make them essential for achieving professional results in gunsmithing.

# Safety Instruction Guide for Brownells Standard MagnaTip® Sets

## Introduction

Thank you for choosing the Brownells Standard MagnaTip® Sets. These tools are designed to assist in the maintenance and assembly of firearms with precision and ease. To ensure safe use and optimal performance, please read this safety instruction guide carefully.

## General Safety Guidelines

- Always read and understand the product instructions before use.
- Keep the tools out of reach of children and vulnerable individuals.
- Inspect the tools for any damage or wear before each use.
- Ensure you are using the correct bit for the specific screw type to prevent damage.
- Use the tools only for their intended purpose as stated in the product specifications.
- Store the tools in a dry and secure location when not in use.
- Report any unsafe product conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- **Personal Safety:**
  - Wear safety glasses to protect your eyes from debris.
  - Use gloves if necessary to enhance grip and protect your hands.
- **Tool Safety:**
  - Do not use damaged bits or handles. Replace them immediately.
  - Avoid using excessive force when tightening screws to prevent stripping.
  - Keep fingers and hands clear of moving parts when using the tools.
- **Environmental Safety:**
  - Do not use the tools in wet or damp conditions to avoid electrical hazards.
  - Ensure the workspace is welllit and free from distractions.

## Instructions for Installation and Usage

### Installation

#### 1. Selecting the Bit:

- Choose the appropriate bit from the set based on the screw type.
- Ensure the bit is securely fitted into the MagnaTip handle.

#### 2. Using the Handle:

- Grip the handle firmly, ensuring your fingers are positioned away from the screw slot.
- Align the bit with the screw head.

## Usage

### 1. Tightening Screws:

- Apply gentle pressure while turning the handle clockwise.
- Increase pressure gradually until the screw is securely fastened.

### 2. Loosening Screws:

- Turn the handle counterclockwise to loosen the screw.
- Ensure the bit remains properly aligned with the screw head.

### 3. Storage:

- After use, clean the bits and handle to remove any debris.
- Store the bits and handle in the provided box and tray for organized storage.

## Disposal Instructions

- Dispose of any damaged bits or handles in accordance with local regulations.
- Recycle packaging materials where possible.
- Do not dispose of the tools in general waste if they are still usable; consider donating them.

## Contact Information for Further Support

For additional support and inquiries regarding the safety and use of your Brownells Standard MagnaTip® Sets, please refer to the manufacturer's contact details provided in the product packaging or visit their official website.

Thank you for prioritizing safety while using the Brownells Standard MagnaTip® Sets. By following these guidelines, you can ensure a safe and effective experience with your tools.
