## State-Of-The-Art Screwdriver Sets & Bits For The Gun Shop or Workshop

**BROWNELLS STANDARD MAGNA-TIP SETS** The Brownells Standard Magna-Tip® Sets are meticulously designed to meet the diverse needs of gunsmiths and firearm enthusiasts, offering a comprehensive selection of interchangeable bits and handles for precise firearm maintenance and assembly. Key Features: Comprehensive Bit Selection: Each set includes eleven bits for slotted screws, #1, #2, and #3 Phillips bits, plus ten hex bits for socket head screws, ensuring versatility across various firearm applications. True Hollow-Ground Bits: The Magna-Tip® bits feature true hollow-ground tips that transmit torque evenly and smoothly up the shank, providing complete metal-to-metal contact with the screw slot. This design allows maximum power to be exerted without damaging the screw. Durable Construction: Manufactured from high-quality materials, these bits are built to withstand rigorous use, ensuring long-lasting performance. Ergonomic Handle Design: The handle is made from shockproof plastic with grooved flutes for a positive grip, allowing for comfortable and controlled use during firearm maintenance tasks. Shockproof plastic with grooved flutes Specifications: #1 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. Includes the box and tray for organized storage and easy access. #2 Standard Kit Includes the Magna-Tip handle of your choice. 24 bits. 11 slotted, 3 Phillips, & 10 hex bits. #3 Standard Kit Includes the Magna-Tip handle of your choice. 11 slotted bits. Included the box and tray for organized storage and easy access. Customer Insights: Our customers appreciate the Brownells Standard Magna-Tip® Sets for their versatility and precision. The comprehensive selection of bits allows Customers to tackle a wide range of firearm maintenance tasks with confidence. The true hollow-ground design ensures a secure fit in screw slots, minimizing the risk of damage during use. The durable construction and ergonomic handle design contribute to a comfortable and reliable user experience, making these sets a valuable addition to any gunsmith's toolkit. Incorporating the Brownells Standard Magna-Tip® Set into your firearm maintenance routine ensures you have the right tools to perform tasks with precision and confidence. Their specialized design and robust construction make them essential for achieving professional results in gunsmithing.

# Safety Instruction Guide for STANDARD MAGNATIP® SETS

## Introduction

Thank you for choosing the Brownells Standard MagnaTip® Sets. This guide provides essential safety instructions and guidelines to ensure safe and effective use of the product. Please read this document carefully before use to enhance your safety and the longevity of the product.

## General Safety Guidelines

- Always inspect the tools before use to ensure they are in good condition.
- Keep tools away from children and unauthorized users.
- Use the tools only for their intended purpose to avoid accidents.
- Store tools in a dry place to prevent rust and damage.
- Report any unsafe products or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the MagnaTip® bits are securely attached to the handle before use.
- Use the appropriate bit size for the screws to prevent stripping or damaging the screw head.
- Avoid applying excessive force when using the tools to prevent injury or damage.
- Always wear safety glasses to protect your eyes from debris.
- Do not use the tools in wet or damp conditions to prevent slipping or electrical hazards.
- If you experience any discomfort or pain while using the tools, stop immediately and consult a professional.

## Instructions for Installation and Usage

### 1. Selecting the Bit:

- Choose the correct bit for the screw type (slotted, Phillips, or hex).
- Ensure the bit is compatible with the MagnaTip® handle.

### 2. Attaching the Bit:

- Insert the bit into the hollow handle securely.
- Turn the bit clockwise until it is firmly in place.

### 3. Using the Tool:

- Hold the handle firmly using the grooved flutes for a secure grip.
- Align the bit with the screw slot and apply gentle pressure.
- Turn the handle in the direction required to tighten or loosen the screw.
- Always maintain control of the tool during use to prevent slipping.

### 4. After Use:

- Clean the bits and handle with a dry cloth to remove any debris.
- Store the bits in the provided box or tray for organized storage.
- Ensure the tools are kept in a safe place away from children.

## **Disposal Instructions**

- Dispose of any damaged or wornout bits responsibly.
- Follow local regulations for disposal of tools and materials.
- Do not dispose of tools in regular household waste; consider recycling options where available.

## **Contact Information for Further Support**

For any questions or concerns regarding the safety and use of the Brownells Standard MagnaTip® Sets, please refer to the contact details provided on the product packaging or visit the manufacturer's website for more information.

By following these safety guidelines and instructions, you can ensure a safe and effective experience with your Brownells Standard MagnaTip® Sets. Thank you for your attention to safety.
