Every gunsmith knows no two screw slots are ever exactly the same. Because so many factories use outside vendors for screws, slot sizes can vary, even within the same model of gun. If you want to be professional about your work, you custom grind each bit to the correct size, a frustrating and time-consuming task without a Super Set. Magna-Tip Bits feature TRUE hollow-ground bits which transmit all the energy of torque evenly and smoothly, up the shank of the bit. Not only does hollow grinding permit this power transfer, it also gives complete metal-to-metal contact between the tip of the bit and the entire screw slot. Thus, maximum power can be exerted. The 58 Bit Master Super Set Plus adds 10 hex-head bits (#185-9, #185-10, #185-00, #185-0, #185-1, #185-2, #185-3, #185-4, #185-5, #185-6), 3 Phillips-head bits (#440-1, #440-2, #440-0), and a 1/8" square bit for Remington buttplates to the contents of the 44 Bit Super Set Plus. It's the most incredible screwdriver system you will ever use!

## Safety Instructions

### Introduction

Thank you for choosing the MAGNATIP 58 BIT MASTER SCREWDRIVER SET. This product is designed for professional and hobbyist gunsmiths who require precision and versatility in their work. To ensure your safety and the effective use of this tool, please read and follow the safety instructions provided in this guide.

### General Safety Guidelines

- Always use the MAGNATIP screwdriver set in accordance with the manufacturer's instructions.
- Inspect the screwdriver bits and handle for any signs of damage before use. Do not use damaged tools.
- Keep the screwdriver set out of reach of children and unauthorized users.
- Use the tool only for its intended purpose. Do not attempt to use it for tasks for which it was not designed.
- Ensure that your working area is clean, welllit, and free from any hazards that could cause accidents.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using the screwdriver set.

### Specific Safety Precautions for Use

- When using the screwdriver bits, ensure that they are securely attached to the handle before applying torque.
- Avoid applying excessive force or torque that may cause the bit to slip or break.
- Do not use the screwdriver set on live electrical components or in environments where electrical hazards are present.
- Be cautious when working with screws that are stuck or rusted. Apply penetrating oil if necessary, and use appropriate techniques to avoid stripping the screw head.
- If you experience any discomfort or pain while using the tool, stop immediately and consult a professional.

### Instructions for Installation and Usage

#### 1. Selecting the Right Bit:

- Choose the appropriate bit size and type for the screw you are working with.
- Ensure that the bit fits snugly in the screw slot to avoid slippage.

#### 2. Attaching the Bit:

- Insert the selected bit into the handle until it clicks into place.
- Ensure that the bit is securely fastened before use.

#### 3. Using the Screwdriver:

- Hold the handle firmly and align the bit with the screw.
- Apply steady pressure and turn the handle clockwise to tighten or counterclockwise to loosen the screw.
- If resistance is felt, do not force the screwdriver. Instead, reassess the situation and apply penetrating oil if necessary.

#### 4. Cleaning and Maintenance:

- After use, clean the bits and handle with a soft cloth to remove dust and debris.
- Store the screwdriver set in a dry location to prevent rust and damage.

## **Disposal Instructions**

- Dispose of the screwdriver set in accordance with local regulations regarding electronic and metal waste.
- Do not dispose of the product in general household waste.
- Consider recycling the components if facilities are available in your area.

## **Contact Information for Further Support**

For any safety inquiries, product support, or to report unsafe products, please refer to the appropriate local authorities or visit the EU Safety Gate platform for updates and information.

By following these safety instructions, you can ensure a safe and effective experience with the MAGNATIP 58 BIT MASTER SCREWDRIVER SET. Thank you for your attention to safety!
