MAGNATIP THINBIT SET Safety Instruction Guide

Introduction

Thank you for choosing the Brownells MagnaTip ThinBit Set. This guide provides important safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the product to understand the associated risks and safety measures.

General Safety Guidelines

- Always use the MagnaTip ThinBit Set in accordance with the manufacturer's instructions.
- Ensure the work area is clean and welllit to prevent accidents.
- Keep the bits and tools out of reach of children and vulnerable individuals.
- Inspect the bits for any signs of damage or wear before each use. Do not use damaged bits.
- Use the bits only for their intended purpose; avoid using them on materials or tasks they are not designed for.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the bits.
- Store the bits in the provided clear plastic case and solid oak bench block to prevent loss and damage.

Specific Safety Precautions for Use

- Handle the bits with care to avoid injury. The tips are sharp and can cause cuts.
- Do not apply excessive force when using the bits; this can lead to breakage and potential injury.
- Ensure that the bit is securely engaged in the tool before use.
- Avoid using the bits in wet or damp conditions to reduce the risk of slipping and electric shock if using powered tools.
- Always follow the tool manufacturer's guidelines when using the bits with power tools.

Instructions for Installation and Usage

1. Selecting the Right Bit:

- Choose the appropriate bit size from the set based on the screw slot you are working with.

2. Installing the Bit:

- Insert the selected bit into the compatible tool (e.g., screwdriver or power tool).
- Ensure the bit is securely fastened in place before use.

3. Using the Bit:

- Align the bit with the screw slot.
- Apply gentle pressure while turning to avoid stripping the screw or damaging the bit.
- If resistance is felt, stop and reassess to avoid damaging the screw or tool.

4. After Use:

- Clean the bits after use to remove any debris or residue.
- Store the bits in the provided case and block for safety and organization.

Disposal Instructions

- Dispose of any damaged or worn bits in accordance with local waste disposal regulations.

- Do not dispose of bits in regular household waste. Check for recycling options for metal materials in your area.
