Longer Bits Reach Through Rings

BROWNELLS MAGNA-TIP® SEE-THRU RING BITS The Brownells MAGNA-TIP® See-Thru Ring Bits are specialized tools designed to facilitate the installation and removal of scope rings with see-through mounts. These extra-long bits are engineered to reach through the scope rings, allowing for efficient engagement with the mounting screws without necessitating scope removal.

Description and Features:

- Extra-Long Design:** The extended length of these bits enables them to reach through see-through scope rings, providing direct access to the mounting screws. This design feature eliminates the need to remove the scope during installation or adjustment, thereby preserving the scope's alignment and zero.
- Precision Fit:** Each bit is hollow-ground to ensure a precise fit in slotted screws, minimizing the risk of cam-out and potential damage to the screw heads or firearm components.
- Durable Construction:** Crafted from hardened steel, these bits offer exceptional strength and longevity, making them suitable for repeated use in demanding gunsmithing tasks.

Available Options: The MAGNA-TIP® See-Thru Ring Bits are available in specific sizes to accommodate common screw dimensions used in scope mounts:

- #6 Slot:** Shank Diameter (SD) = .180 inches, Blade Thickness (BT) = .037 inches.
- #8 Slot:** Shank Diameter (SD) = .210 inches, Blade Thickness (BT) = .037 inches.
- 3/32" Hex:** Designed to fit Leupold scope rings.
- 7/64" Hex:** Designed to fit Redfield scope rings.
- T-10 Torx:** Suitable for certain scope ring screws.
- T-15 Torx:** Suitable for certain scope ring screws.

Specifications:

- Material:** Hardened steel
- Bit Type:** Hollow ground slotted and hex
- Compatibility:** Designed for use with Brownells MAGNA-TIP® handles

Customer Insights: Our customers report that the MAGNA-TIP® See-Thru Ring Bits are invaluable additions to their gunsmithing toolkits. The extra-long design allows for easy access to scope ring screws without removing the scope, preserving alignment and zero. Customers appreciate the precision fit of the bits, which minimizes the risk of damaging screw heads or firearm components during maintenance. The durable construction ensures these bits withstand repeated use in demanding tasks. Incorporating the Brownells MAGNA-TIP® See-Thru Ring Bits into your gunsmithing toolkit ensures you have the specialized tools necessary for efficient and precise scope mounting and maintenance tasks.

Safety Instruction Guide for MAGNATIP® SeeThru Ring Bits

Introduction

Thank you for choosing the Brownells MAGNATIP® SeeThru Ring Bits. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this guide carefully before use to avoid potential hazards and ensure a positive experience.

General Safety Guidelines

- **Product Safety:** Ensure safe use of the MAGNATIP® SeeThru Ring Bits by following all instructions provided in this guide.
- **Hazard Awareness:** Be aware of potential hazards associated with the use of tools, including sharp edges and the risk of injury.
- **Vulnerable Groups:** Keep tools out of reach of children and ensure that they are used only by individuals with appropriate training and experience.
- **Online Shopping:** If purchased online, ensure that the vendor complies with all safety regulations.
- **Report Unsafe Products:** If you encounter any unsafe products or accidents, report them to the relevant authorities.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear appropriate PPE, including safety glasses and gloves, to protect against debris and sharp edges.
- **Check for Damage:** Before use, inspect the bits for any signs of damage or wear. Do not use damaged tools.
- **Work Environment:** Ensure that your work area is clean, welllit, and free from distractions to minimize the risk of accidents.
- **Proper Handling:** Always handle the bits with care. Avoid dropping them or using excessive force during installation and removal.
- **Secure Workpiece:** Ensure that the firearm or scope is securely positioned before using the bits to prevent slipping or movement.

Instructions for Installation and Usage

1. **Select the Correct Bit:** Choose the appropriate MAGNATIP® SeeThru Ring Bit based on the screw size and type (e.g., #6 Slot, #8 Slot, Hex, or Torx).
2. **Insert the Bit:** Place the selected bit into the MAGNATIP® handle, ensuring a snug fit.
3. **Access Mounting Screws:** Use the extralong design of the bit to reach through the seethrough scope rings without removing the scope.
4. **Engage Screws:** Turn the bit slowly and steadily to engage the mounting screws. Avoid excessive force to prevent camout or damage.
5. **Remove Screws:** To remove screws, reverse the process. Ensure that you do not apply too much pressure, which could damage the screw heads or components.
6. **Clean After Use:** After completing your task, clean the bits to remove any debris or residue. Store them in a safe place.

Disposal Instructions

- **Responsible Disposal:** Dispose of any damaged or worn bits in accordance with local regulations. Do not dispose of them in regular household waste.
- **Recycling:** If possible, recycle metal components to minimize environmental impact.

Contact Information for Further Support

For safety inquiries or additional support regarding the MAGNATIP® SeeThru Ring Bits, please refer to the manufacturer's contact information provided with your product packaging.

By following these safety instructions and guidelines, you can ensure a safe and effective experience with your MAGNATIP® SeeThru Ring Bits. Thank you for your attention to safety.
