

STOCK TAKEDOWN SET - BROWNELLS STOCK TAKEDOWN 3/8" DRIVE 10" EXTENSION ONLY

[Gunsmith Tools](#) > [Shotgun Tools](#) > [Buttstock Takedown Tools](#)

All The Tools Needed To Prevent Split Stocks

The very best possible tools for removing most styles of buttstock bolts and action spring tube nuts. The thin-walled sockets are correct to prevent slipping and burring. The drag-link bit is round at the drive end, which automatically centers the blade in the stock bolt hole and makes fitting it into the slot about 1,000 times easier!! Plus, they work for other shop jobs, too.

STOCK TAKEDOWN SET BROWNELLS STOCK TAKEDOWN 10" EXTENSION ONLY Safety Instruction Guide

Introduction

Thank you for choosing the Brownells Stock Takedown Set. This guide provides essential safety instructions and usage guidelines to ensure safe and effective use of the product. Please read this document carefully before using the tools.

General Safety Guidelines

- Always use the tools in accordance with the manufacturer's instructions.
- Inspect the tools for any damage or wear before each use. Do not use damaged tools.
- Keep the tools out of reach of children and vulnerable individuals.
- Wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the tools.
- Use the tools only for their intended purpose; misuse may lead to injury or damage.
- Do not attempt to modify the tools in any way.

Specific Safety Precautions for Use

- Ensure that the work area is clean, welllit, and free of hazards.
- When using the Thandle and drive extension, ensure a secure grip to prevent slipping.
- Be cautious when working with the draglink bit; ensure it is properly centered in the stock bolt hole before applying force.
- Avoid wearing loose clothing or jewelry that may get caught in the tools during operation.
- If you feel discomfort or fatigue while using the tools, take a break to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials.
- Ensure that the workspace is clear and organized.

2. Using the Thandle and Drive Extension:

- Attach the 10" drive extension to the Thandle securely.
- Select the appropriate socket size for the buttstock bolt or action spring tube nut.
- Insert the socket onto the drive extension.

3. Removing the Buttstock Bolt:

- Align the socket over the buttstock bolt.
- Apply firm, even pressure while turning the Thandle counterclockwise to loosen the bolt.
- If the bolt is stuck, use penetrating oil to help loosen it, allowing sufficient time for the oil to take effect.

4. Using the DragLink Bit:

- Insert the draglink bit into the stock bolt hole.

- Ensure the bit is centered before applying force.
- Turn the Thandle to remove the bolt, ensuring a secure grip.

5. PostUsage:

- Clean the tools after use to remove any debris or residue.
- Store the tools in a dry, safe place to prevent damage.

Disposal Instructions

- Dispose of any broken or wornout tools in accordance with local regulations.
- Do not dispose of tools in regular household waste if they are considered hazardous.
- Check with local waste management facilities for proper disposal methods.

Contact Information for Further Support

For safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website.

Conclusion

By following these safety instructions, you can ensure a safe and effective experience with the Brownells Stock Takedown Set. Always prioritize safety and adhere to the guidelines provided in this document. Thank you for your attention to these important safety measures.
