Perfect No-Slip, No-Scar Fit In Base & Ring Clamp Screws

BROWNELLS MAGNA-TIP® WINDAGE/CLAMP SCREW BITS The Brownells MAGNA-TIP® Windage/Clamp Screw Bits are precision-engineered tools designed to provide an exact, no-slip fit for virtually every scope base, ring, and windage/clamp screw used today. These custom-ground bits ensure maximum contact with screw slots, minimizing the risk of damage to both the screw and the firearm during installation or removal. Description and Features: Custom-Ground Precision: Each bit is meticulously ground to match the specific dimensions of various windage and clamp screws, ensuring a secure and precise fit. Durable Construction: Made from high-quality materials, these bits are designed to withstand the torque required for tightening or loosening screws without deforming or breaking. Compatibility: The bits are compatible with Brownells MAGNA-TIP® handles, allowing for versatile use across different firearms and applications. Available Options: Brownells offers specific bits tailored for different screw types: Leupold/Buehler Windage Screw Bit (SKU: 080430430): Designed specifically for Leupold and Buehler windage screws, providing a perfect fit to prevent slippage and damage. Redfield Windage Screw Bit (SKU: 080430400): Tailored for Redfield windage screws, ensuring precise engagement and ease of use. Ruger Clamp Screw Bit (080430435): Tailored for Ruger Clamp screws, ensuring precise engagement and ease of use. Weaver Clamp Screw Bit (080430625): Tailored for Weaver Clamp screws, ensuring precise engagement and ease of use. Customer Insights: Customers have expressed high satisfaction with the MAGNA-TIP® Windage/Clamp Screw Bits, highlighting their precision, effectiveness, and affordability. The exact fit and durable construction of these bits have been particularly appreciated, as they facilitate the secure installation and removal of scope base and ring screws without causing damage. Incorporating the Brownells MAGNA-TIP® Windage/Clamp Screw Bits into your gunsmithing toolkit ensures you have the specialized tools necessary for precise and safe scope mounting and adjustment tasks.

Safety Instruction Guide for MAGNATIP® Windage/Clamp Screw Bits

Introduction

Thank you for choosing the Brownells MAGNATIP® Windage/Clamp Screw Bits. These precisionengineered tools are designed to provide a secure fit for various scope bases, rings, and windage/clamp screws. This safety instruction guide outlines essential safety guidelines, precautions for use, and proper installation instructions to ensure your safety and the effective use of these tools.

General Safety Guidelines

- Ensure safe use of the MAGNATIP® Windage/Clamp Screw Bits by following these guidelines:
 - Always read and understand the instructions before use.
 - Keep tools out of reach of children and vulnerable individuals.
 - Inspect the bits for any damage before each use. Do not use damaged tools.
 - Use the bits only for their intended purpose as specified in this guide.
 - Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, to protect against debris and sharp edges.
 - Store the bits in a dry and safe location to prevent damage and injury.

Specific Safety Precautions for Use

- To ensure safe and effective use of the MAGNATIP® Windage/Clamp Screw Bits, adhere to the following precautions:
 - Use the correct bit size for the screw to prevent stripping or damaging the screw.
 - Apply torque gradually and avoid excessive force to prevent tool breakage or injury.
 - Do not use the bits on screws that are rusted or corroded without proper treatment.
 - Always secure the firearm in a stable position while using the bits to prevent movement and potential accidents.
 - Avoid wearing loose clothing or jewelry that could get caught in tools or moving parts.

Instructions for Installation and Usage

- Follow these steps for the proper installation and usage of the MAGNATIP® Windage/Clamp Screw Bits:

1. Select the Appropriate Bit:

- Choose the correct bit tailored for the specific screw type you are working with (e.g., Leupold/Buehler, Redfield, Ruger, or Weaver).

2. Attach to Handle:

- If using a Brownells MAGNATIP® handle, securely attach the selected bit to the handle, ensuring a tight fit.

3. Position the Bit:

- Align the bit with the screw slot, ensuring it fits snugly without wobbling.

4. Apply Torque:

- Turn the handle gently to tighten or loosen the screw. Increase torque gradually as needed,

but do not exceed the recommended torque specifications for the screw.

5. Check for Secure Fit:

- After installation, check that the screw is securely fastened without overtightening, which may cause damage.

6. Remove the Bit:

- After use, carefully detach the bit from the handle and store it in a safe place.

Disposal Instructions

- Proper disposal of the MAGNATIP® Windage/Clamp Screw Bits is important for environmental safety:
 - When the bits reach the end of their useful life or are damaged beyond repair, dispose of them in accordance with local regulations.
 - Do not dispose of bits in regular household waste if they are made of materials that can be recycled. Check with local recycling facilities for proper disposal methods.

Contact Information for Further Support

- For any questions or concerns regarding the MAGNATIP® Windage/Clamp Screw Bits, please refer to the manufacturer's contact information provided with the product packaging or on the official website.

By following these safety instructions, you can ensure the safe and effective use of your Brownells MAGNATIP® Windage/Clamp Screw Bits. Thank you for prioritizing safety and quality in your gunsmithing tasks.
