# Safety Instruction Guide for Brownells Allen Head Fixed Blade Screwdrivers

## Introduction

Thank you for choosing the Brownells Allen Head Fixed Blade Screwdrivers. These precision engineered tools are designed for enhanced control and durability in firearms maintenance and assembly tasks. This guide provides important safety information to ensure safe and effective use of the screwdrivers in compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always use the screwdrivers for their intended purpose as specified in the product description.
- Keep the screwdrivers out of reach of children and vulnerable individuals.
- Inspect the screwdrivers regularly for any signs of wear or damage before each use.
- Store the screwdrivers in a safe, dry place to prevent rust and damage.
- Report any unsafe products or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses, when using the screwdrivers.
- Ensure that the work area is clean and well lit to avoid accidents.
- Use the correct size screwdriver for the specific Allen head screw to prevent damage to the screw or tool.
- Apply a steady, controlled force when using the screwdrivers to avoid slipping and potential injury.
- Do not use the screwdrivers to pry or apply excessive torque beyond their intended use.

## Instructions for Installation and Usage

### 1. Selecting the Right Screwdriver

- Choose the appropriate size from the available options: 1/16", 5/64", 3/32", 7/64", 1/8", 3.5mm, or 5/32".

### 2. Using the Screwdriver

- Grip the handle firmly and insert the blade into the Allen head screw.
- Turn the screwdriver clockwise to tighten the screw and counterclockwise to loosen it.
- If resistance is met, do not force the screwdriver. Instead, check if you are using the correct size or apply a hex wrench to increase torque if necessary.

### 3. Maintenance

- After each use, clean the screwdrivers with a dry cloth to remove any debris or moisture.
- Store the screwdrivers in a designated tool storage area to prevent damage and maintain organization.

## Disposal Instructions

- Dispose of any damaged or worn screwdrivers in accordance with local regulations.
- Consider recycling the steel components where facilities are available to promote environmental sustainability.
