# Safety Instruction Guide for COMPLETE .38.45 CHAMFERING KIT

## Introduction

Thank you for choosing the COMPLETE .38.45 CHAMFERING KIT. This guide provides essential safety instructions and usage information to ensure safe and effective operation of the product. Please read this guide carefully before using the product.

## General Safety Guidelines

- Always use the COMPLETE .38.45 CHAMFERING KIT in accordance with the manufacturer's instructions.
- Ensure that the work area is clean, welllit, and free of any potential hazards.
- Keep the kit out of reach of children and unauthorized users.
- Wear appropriate personal protective equipment (PPE), including safety glasses and gloves, when using the chamfering tools.
- Regularly inspect the tools for wear or damage before each use. Do not use damaged tools.
- Store the kit in a secure location when not in use to prevent unauthorized access.

## Specific Safety Precautions for Use

- Use the chamfering tools only for their intended purpose as specified in the product description.
- Always secure the workpiece properly before using the chamfering tools to prevent movement during operation.
- Avoid direct contact with the cutting edges of the tools to prevent cuts or injuries.
- Do not apply excessive force when using the tools; let the tool do the work.
- If you experience any difficulty or discomfort while using the tools, stop immediately and assess the situation.
- Follow proper procedures for handling and disposing of any metal shavings or debris produced during use.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure that you have all components of the COMPLETE .38.45 CHAMFERING KIT.
- Familiarize yourself with each tool included in the kit: chamfer cutters, brass laps, facing cutters, pilots, handle, tool extension rod, centering guide, breaker bar, and Allen wrench.

### 2. Installation of Tools

- Select the appropriate chamfer cutter or facing cutter for your specific application.
- Attach the selected tool securely to the handle or extension rod as per the instructions provided in the kit.

### 3. Using the Chamfering Tool

- Position the workpiece securely in a vise or appropriate holding device.
- Align the chamfering tool with the edge of the workpiece.
- Begin chamfering by applying gentle pressure and moving the tool in a controlled manner.
- Monitor the process closely to ensure even cutting and avoid overchamfering.

### 4. PostUse Care

- Clean the tools after use to remove any metal shavings or debris.
- Store the tools in the fitted plastic bench box provided to protect them from damage.

## **Disposal Instructions**

- Dispose of any damaged or worn tools in accordance with local regulations.
- Recycle materials where possible to minimize environmental impact.
- Do not dispose of tools in regular household waste.

## **Contact Information for Further Support**

- For any safety inquiries or further assistance regarding the COMPLETE .38.45 CHAMFERING KIT, please refer to the manufacturer's contact information provided in the product packaging.

## **Conclusion**

By following these safety instructions and guidelines, you can ensure a safe and effective experience with the COMPLETE .38.45 CHAMFERING KIT. Always prioritize safety and compliance with local regulations when using this product. Thank you for your attention to these important safety measures.
