

# 18° CHAMFER CUTTER - BROWNELLS 18 CHAMFER CUTTER FOR .45 CALIBER

[Gunsmith Tools](#) > [Handgun Tools](#) > [Barrel Tools](#) > [Chamfering Tools](#)

## No Lathe Needed, No Need To Remove Barrel From Frame

Our "standard" cutter. The angle is right for jacketed bullets as well as round nose and semi-wadcutter lead bullets. It will remove most factory cuts without exceeding the maximum recommended throat diameter or creating a compound angle. Use the .38 cutter for 9mm through .41; use the .45 cutter for .44 through .45.

# Safety Instruction Guide for 18° Chamfer Cutter

## Brownells 18 Chamfer Cutter for .45 Caliber

### Introduction

Thank you for choosing the 18° Chamfer Cutter from Brownells. This tool is designed to enhance your reloading experience by providing precise chamfering for .45 caliber bullets. To ensure your safety and the effective use of this product, please read this guide carefully.

### General Safety Guidelines

- Always read the instructions before using the product.
- Ensure that the workspace is clean and welllit.
- Use personal protective equipment (PPE) such as safety glasses and gloves.
- Keep the cutter out of reach of children and vulnerable individuals.
- Regularly inspect the cutter for any signs of wear or damage before use.
- Do not use the cutter for any purpose other than its intended use.
- Report any unsafe conditions or accidents to the appropriate authorities.

### Specific Safety Precautions for Use

- Avoid direct contact with the cutting edge to prevent cuts and injuries.
- Do not apply excessive force while using the cutter; let the tool do the work.
- Ensure that you are using the correct cutter for the caliber of bullets you are working with.
- Keep fingers and hands clear of the cutting area during operation.
- Store the cutter in a safe place when not in use to prevent accidental injury.

### Instructions for Installation and Usage

#### 1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure that you are using the cutter in a stable and secure position.

#### 2. Using the Cutter:

- Align the cutter with the base of the bullet you wish to chamfer.
- Gently insert the bullet into the cutter, ensuring a snug fit.
- Rotate the bullet slowly while applying light pressure to the cutter.
- After achieving the desired chamfer, remove the bullet and inspect the cut for quality.
- Repeat the process for additional bullets as needed.

#### 3. Cleaning and Maintenance:

- After use, clean the cutter with a soft cloth to remove any debris.
- Store the cutter in its designated case or location to protect it from damage.

### Disposal Instructions

- Dispose of the cutter according to local regulations for metal tools.
- If the cutter is damaged or no longer usable, ensure it is disposed of safely to prevent injury.

## **Contact Information for Further Support**

For any safety inquiries or additional information regarding the 18° Chamfer Cutter, please refer to the product packaging or visit the manufacturer's website for support resources.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities. Enjoy your reloading experience with the 18° Chamfer Cutter!
