

5° CHAMFER CUTTER - 5 CHAMFER CUTTER FOR .44-.45 CALIBER

[Gunsmith Tools & Supplies](#) > [Handgun Tools](#) > [Barrel Tools](#) > [Chamfering Tools](#)

No Lathe Needed, No Need To Remove Barrel From Frame

Super gentle angle as currently used by Ruger on their .38/.357 DA guns. If you set back a Ruger barrel or just want to duplicate this angle on any other barrel, use this cutter. You CANNOT use 18° or 11° cutters on a 5° throat without exceeding maximum throat diameter or making a compound angle.

Safety Instruction Guide for 5° Chamfer Cutter

Introduction

Thank you for choosing the 5° Chamfer Cutter designed for .44.45 caliber firearms. This guide provides essential safety instructions to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR). Please read this document carefully before using the product.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe use.
- Ensure that the product is suitable for your specific firearm.
- Store the cutter in a safe and dry place away from children and pets.
- Regularly inspect the cutter for any signs of wear or damage before use.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Use this cutter only for its intended purpose: chamfering the throat of barrels for .44 and .45 caliber firearms.
- Do not use the cutter on barrels with a throat angle other than 5°.
- Avoid exceeding the maximum throat diameter to prevent damage to the barrel.
- Always wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the cutter.
- Ensure that the work area is clean and free of obstructions to prevent accidents.
- Do not operate the cutter if you are under the influence of drugs or alcohol.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure the firearm is unloaded and in a safe condition before working on it.

2. Installation of the Cutter:

- Secure the cutter in a stable work surface or a drill press.
- Ensure the cutter is properly aligned with the barrel to achieve the desired chamfer angle.

3. Using the Cutter:

- Start the cutter at a low speed to ensure control.
- Gradually increase the speed as needed, but do not exceed the manufacturer's recommendations.
- Apply even pressure while chamfering to avoid damaging the barrel.
- Frequently check the progress to ensure the desired angle and diameter are achieved.

4. PostUse:

- Clean the cutter after use to remove any debris or residue.
- Store the cutter in its protective case or a safe location.

Disposal Instructions

- Dispose of the cutter responsibly, following local regulations for metal and tool disposal.
- Do not dispose of the cutter in regular household waste.

Contact Information for Further Support

For any inquiries related to safety or product concerns, please contact the manufacturer or your local distributor. Ensure that you have the product name and model information available for reference.

Thank you for your attention to these safety instructions. Your commitment to safety helps ensure a positive experience with the 5° Chamfer Cutter.
