

WHEEL PREP

[Gunsmith Tools & Supplies](#) > [Metal Prep & Coloring](#) > [Polishing Tools & Accessories](#) > [Polishing Compounds](#)

Conditions Your Wheels, Conserves Your Polish

Saves you time and saves your polish. Puts the polish on the wheel and not on the walls or floor. No more fiddling or fooling, with hard to load polishing wheels. Greaseless polishes almost jump on your wheel after a single application of this incredible product. Brownells Wheel Prep™ is a dark-blue, sizing compound that's applied after the wheel is trued, but before you apply your greaseless polish. It instantly conditions and prepares the wheel to accept the maximum amount of polish in a single loading. Works on all types of wheels, for greaseless polishes ONLY. Not for use with Brownells 555 or other grease/tallow based polishes.

WHEEL PREP Safety Instruction Guide

Introduction

Thank you for choosing Brownells Wheel Prep™. This product is designed to enhance the performance of your polishing wheels while ensuring a safe and efficient polishing experience. Please read this safety instruction guide carefully to ensure proper use and handling of the product.

General Safety Guidelines

- Always use Brownells Wheel Prep in a wellventilated area to minimize inhalation of any dust or particles.
- Keep the product out of reach of children and pets to prevent accidental ingestion or misuse.
- Avoid contact with skin and eyes. If contact occurs, rinse thoroughly with water and seek medical attention if irritation persists.
- Do not ingest the product. In case of accidental ingestion, contact a medical professional immediately.
- Store the product in a cool, dry place away from direct sunlight and heat sources.
- Regularly check for any updates or recalls related to the product on the EU Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the polishing wheel is securely mounted before applying Wheel Prep.
- Do not apply Wheel Prep to any surfaces other than the polishing wheel.
- Avoid using Wheel Prep with grease or tallowbased polishes, as this can lead to ineffective results and potential hazards.
- Always wear appropriate personal protective equipment (PPE), such as gloves and safety goggles, when handling the product.
- If you experience any adverse reactions while using the product, discontinue use immediately and consult a healthcare professional.

Instructions for Installation and Usage

1. Preparation:

- Ensure the polishing wheel is clean and free from any previous polish residues.
- Inspect the wheel for any damage before applying Wheel Prep.

2. Application:

- Apply a small amount of Brownells Wheel Prep directly onto the polishing wheel.
- Use a clean applicator or cloth to spread the product evenly over the surface of the wheel.
- Allow the product to set for a few moments to ensure proper adhesion.

3. Polishing:

- Once the Wheel Prep has been applied, proceed to apply your greaseless polish as per the manufacturer's instructions.
- Monitor the application process and avoid overloading the wheel to prevent spillage.

4. PostUse Care:

- After polishing, clean the wheel to remove any excess polish and Wheel Prep residue.
- Store the product securely and ensure the cap is tightly closed to prevent leakage.

Disposal Instructions

- Dispose of any unused or expired product in accordance with local regulations.
- Do not dispose of the product in household waste. Check for designated disposal sites or hazardous waste collection points in your area.

Contact Information for Further Support

For any questions or concerns regarding the use of Brownells Wheel Prep™, please contact the manufacturer directly. Ensure you have your product details ready for a more efficient response.

Thank you for your attention to these safety instructions. Enjoy using Brownells Wheel Prep™ for an enhanced polishing experience!
