## Shop-Proven Premium-Grade Polish For The Professional

The answer to a gun polisher's dream! Made to the highest standards of quality with carefully screened, true-sized grits for reliable, repeatable results and a natural, greaseless base that doesn't leave a residue to mess up bluing or plating jobs. Packed in a formed, flexible plastic tube to stay fresh between uses. 1) Unlike hard drying abrasives, Polish- O-Ray® sets up to a medium soft surface without flinty hard flakes which, regardless of grit size being used, can do serious damage to a polished surface. 2) It is easily applied to polishing wheels without stopping the motor. Simply press the open end of the tube to your wheel; the polish adheres to the moving surface, hardens in a few seconds and is ready for use. 3) Because of its softer nature, a true, ripple-free surface is quickly obtained on all wheels. The best possible polished surface, free from ripples and bounce marks, is your assurance of a superior, professional refinishing job. Polish-O-Ray® does this for you. 4) Polish-O-Ray® has been used by gunsmiths, metal finishers, and aircraft manufacturers since the early 1940's. Wherever a quality surface, free from chatter marks, scratch marks and imperfections is required, the use of Polish-O-Ray® is a MUST. One precision manufacturer in the southeast orders by the keg. And, where else but on a gun does a perfect finish draw more praise and admiration? These beautiful finishes are the reason for Polish-O-Ray®'s continuing popularity among our country's gunsmiths and serious hobbyists. By following the "Master Metal Polisher's" technique, it is possible to obtain a top quality finishing job in a minimum of time with P-O-R®. Complete instructions are in our Bluing Instruction Booklet (#076-200-135) and the book Gunsmith Kinks™. It consists; mainly, of starting with the coarsest grit and polishing the surface in one direction; then, with the next finer grit on a different wheel polishing at 45° angles to the first "pass". By following this procedure down through the finer grit numbers, the final surface is unequaled for quality and perfection. Polish-O-Ray® is shipped in a resealable outer bag. Put the tube back in the bag, seal with a twist tie and ALWAYS store all your Polish-O-Ray® - brand new or partially used - in the refrigerator for longest life.

# Safety Instruction Guide for POLISHORAY® 500 GRIT POLISHORAY

## Introduction

Thank you for choosing POLISHORAY® 500 GRIT POLISHORAY. This product is designed to help you achieve a superior polished finish on firearms, metal surfaces, and aircraft components. To ensure safe and effective use, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Ensure that you are using this product in a wellventilated area to avoid inhalation of dust or particles.
- Keep the product out of reach of children and pets.
- Always wear appropriate personal protective equipment (PPE) such as gloves, goggles, and a dust mask when using this product to minimize exposure to dust and potential irritants.
- Regularly check for any product recalls or safety updates on the EU's Safety Gate platform.
- If you experience any adverse reactions while using this product, discontinue use immediately and seek medical advice.

## Specific Safety Precautions for Use

- **Hazard Identification:** PolishORay® contains fine abrasive materials that can cause skin and eye irritation. Avoid direct contact with skin and eyes.
- **Avoid Inhalation:** Do not inhale dust generated during use. Use a dust mask if necessary.
- **Proper Storage:** Store the product in a cool, dry place, ideally in the refrigerator, to maintain its quality and longevity.
- **Handling:** Always handle the tube with care. Do not puncture or expose it to extreme temperatures.
- **Emergency Measures:** In case of accidental contact with eyes, rinse immediately with plenty of water and seek medical attention if irritation persists.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure that the work area is clean and free from any flammable materials.
- Gather all necessary equipment, including polishing wheels and personal protective equipment.

### 2. Application:

- Without stopping the motor, press the open end of the PolishORay® tube against the polishing wheel.
- The polish will adhere to the moving surface and harden quickly, ready for use.

### 3. Polishing Technique:

- Start with the coarsest grit and polish the surface in one direction.
- Switch to a finer grit on a different wheel, polishing at a 45° angle to the first pass.
- Continue this process with progressively finer grits until the desired finish is achieved.

### 4. PostUse Care:

- After use, clean the polishing wheels to remove any residue.
- Seal the tube back in its resealable outer bag and store it in the refrigerator.

## **Disposal Instructions**

- Dispose of any unused or expired PolishORay® in accordance with local regulations for hazardous waste.
- Do not dispose of this product in household waste. Consult your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any safety inquiries or further support regarding this product, please refer to the manufacturer's contact details provided with your purchase.

By following these safety guidelines and instructions, you can ensure a safe and effective polishing experience with POLISHORAY® 500 GRIT POLISHORAY. Thank you for your attention to safety!
